WRECKED PLANES are shown on deck of the fire-scarred nuclear carrier Enterprise after the ship returned to Pearl Harbor. Fifteen aircraft on the flight deck were destroyed and a number of others damaged when a series of explosions and fire swept the carrier on a training exercise on Tuesday. (AP Wirephoto)

Paris Talks Begin Saturday

PARIS (AP) — American and North Vietnamese officials inspected and approved today a set of three tables provided by the French for the opening of the Vietnam peace talks, which are expected to be slow and tortuous.

The four delegations—American, South Vietnamese, North Vietnamese and the Viet Cong—assemble Saturday around a table and then only to government. Their secretarial staffs gather at two rectangular tables aligned with the center of the round table and 18 inches from its edge.

This arrangement broke a deadlock of two months over the shape of the table and speaking order, but it was so vague and ambiguous as to becloud any participant's claim to victory. The vagueness of the arrangement seemed deliberate.

The French government quickly produced the tables—the big round one and the two small ones, each 5½ feet long by 3 feet wide.

Representatives of the Ameri-

can and North Vietnamese delegations arrived separately at the former Hotel Majestic, now the International Conference Center, to give their approval.

It was in the same conference room that the U.S.-North Vietnamese talks opened May 13 last year.

There is no word yet on just how the delegations will sit around the table.

North Vietnam and its ally, the Viet Cong's National Liberation Front, can point to the fact that their original round table idea has been accepted, and that thus they consider the conference four-sided.

What appears to have taken place in the long weeks of bargaining is a vindication of the slogan of W. Averell Harriman, the departing chief U.S. negotia-

tor, who pictures himself a champion of "open covenants secretly arrived at."

But it seems clear that each side had to surrender something.

North Vietnam dropped its insistence on the drawing of lots by the four parties for a speaking order. As Hanoi envisioned it, this process would have indicated equal status for the Liber-

ation Front with the Saigon government.

Saigon dropped its insistence on a visible mark across the table to indicate two sides, and pictured the table arrangement which emerged Thursday as "the nearest we could get to the two sides that we have been fighting for."

North Vietnam gave way on the matter of flags and emblems in the conference room. Display of the Viet Cong flag could have been regarded as a symbol of sovereignty. But the North Vietnamese still consider the conference one of "four equals."

What it amounts to, then, is this: When the parties assemble Saturday, the Americans and South Vietnamese will seat themselves as a unit—one side of a two-sided war. The North Vietnamese and the Front will approach the table considering themselves two separate political entities.

Nixon Pledged To Viet Peace

KEY BISCAYNE, Fla. (AP) — President-elect Nixon has pledged himself to purposeful and energetic pursuit of the Vietnam peace negotiations, without signifying any policy alteration in that quest.

His statement on Saturday's coming resumption of the Paris peace talks was brief and little more than a formality.

The break in the procedural deadlock which had stalled the talks was a preinauguration bonus for the incoming administration.

Nixon, working and relaxing at Key Biscayne, at first indicated through a spokesman that

he would have nothing to say on the matter. Later he issued this statement:

"I am pleased that new talks can now begin in Paris. My administration will pursue these talks with energy and purpose."

The president-elect will wind up his four-day Florida respite and fly to New York tonight, his inaugural address presumably all but ready for Monday's ceremony.

Two diplomats who played key roles in the Vietnam councils of the outgoing administration were named by Nixon to major assignments in the new one.

Henry Cabot Lodge, twice U.S. ambassador to Saigon, is to head the Paris negotiating team beginning Monday. And Ellsworth Bunker Jr. will remain as U.S. ambassador in South Vietnam.

W. Averell Harriman, who headed Johnson's negotiating team, said in Paris that the agreement on starting talks with South Vietnam and the Viet Cong's National Liberation Front participating, removed an important obstacle for the new administration.

"Otherwise there might have been considerable delay," he said.

Flu Reaches Russ

GENEVA (AP) — The Hong Kong flu is spreading quickly in the Soviet Union, U.N. World Health Organization reported today. It gave no figure.

British Labor Govt. Planning Curb, Fine On Wildcat Strikes

Czech Student Is Human Torch

PRAGUE (AP) — A Czechoslovak student poured gasoline over his body and set himself on fire to protest Soviet occupation of this country and reports swept through Prague today that more self-immolations were planned.

Jan Palach, 21, a history and political economy student at Charles University, was reported in critical condition from burns over 85 per cent of his body. He set himself afire Thursday in Wenceslas Square.

There were unconfirmed reports that more students were willing to burn themselves and that Palach carried a letter saying the next such incident would take place within 10 days and continue until the Russians leave.

Czechoslovakia's Communist party central committee, meanwhile scheduled another meeting today after recessing a session that had been scheduled for only a day to stamp approval on decisions already made. An official announcement said 18 speeches were heard Thursday and that 18 more are scheduled.

It was considered possible the central committee's timing was thrown off by the suicide attempt.

The government showed its concern by sending Evzen Erban, chairman of the National Front, and Stanislav Razl, premier of the Czech national government, to a hastily called meeting with student leaders at a university building on Gorky Square.

Many students said Palach's immolation was bound to stir up students who already are in the forefront of protest against abandonment of some reforms and loss of freedoms because of the presence of Soviet troops.

The trade union newspaper Prace said: "It is said four or five young people want to follow his example" and added that his action was intended to "protest the occupation of Czechoslovakia by foreign armies."

Filibuster Splits State Senators

WASHINGTON (AP) — Sen. Philip Hart, D-Mich., was among 45 senators who voted Thursday to sustain a ruling by Vice President Hubert Humphrey that a simple majority could cut off debate in a session-opening fight over the anti-filibuster rule. Sen. Robert P. Griffin, R-Mich., was among the 53 senators who voted to defeat the motion.

Both Hart and Griffin were among the 51-47 majority vote on imposing cloture to shut off debate on the filibuster proposal.

Today's Chuckle

Current returns on the winter TV shows reveal that top ratings went to the "no school today" announcements.

Kennedy Autopsy Ruled As Correct

WASHINGTON (AP) — A panel of medical experts which met in secret last year says the autopsy findings on President John F. Kennedy were correct as detailed in the Warren Commission Report and prove he was shot twice from behind.

The report was made public by the Justice Department Thursday night on the eve of court proceedings on a petition by New Orleans Dist. Atty. Jim Garrison to gain possession of autopsy photographs and x-rays in the hope of proving the President was hit by one bullet fired from in front him, and another fired at his back.

Garrison subpoenaed the material as evidence in the trial of Clay L. Shaw, retired 55-year-old New Orleans businessman charged with conspiring to murder Kennedy.

Garrison claims he can use the photographs and x-rays to prove at least one of the bullets which struck Kennedy in Dallas five years ago was fired from his front.

Deface Paintings Depicting Harlem

NEW YORK (AP) — Rembrandt's "Christ With a Pilgrim's Staff" and nine other paintings have been defaced at the Metropolitan Museum of Art in what a museum official said was a protest against a special exhibit on Harlem.

Small "H's" — apparently standing for Harlem — were scratched into the varnish covering the paintings. The scratches can be removed.

Small "H's" — apparently standing for Harlem — were scratched into the varnish covering the paintings. The scratches can be removed.

The incident occurred Thursday during a subcommittee

This would show that a conspiracy was involved, whereas the Warren Commission concluded Kennedy was shot by one man, Lee Harvey Oswald, acting alone.

The photographs and x-rays were placed in the care of the National Archives in 1966 by Kennedy's widow, Mrs. Aristotle Onassis, and his brother, the late Sen. Robert F. Kennedy.

This was done by letter agreement that the material would not be made public for five years' and then only to government investigators, to prevent "undignified or sensational" use of them.

Garrison asked that the District of Columbia General Sessions Court order the national archivist, James B. Rhoads, to appear with the material at Shaw's trial Jan. 21. Rhoads was ordered to a show-case hearing today to explain why he should not.

He filed an application in the court Thursday listing several reasons. For one thing, Rhoads said, violating restrictions under which the National Archives received the material "would completely destroy the public confidence in the federal government to honor its commitments to donors of papers' oral history transcripts and other historical material."

Atty. Gen. Ramsey Clark, who released the review panel's findings said Mrs. Onassis and Sen. Edward M. Kennedy, D-Mass., the only surviving Kennedy brother, were consulted before the material was shown to the panel.

Snow Sled Hit, Two Men Killed

L'ANSE — Two men riding a snowmobile were killed early this morning when their vehicle collided with a car in a ditch off M-35 just west of Baraga.

State Police of the L'Anse post said Paul W. Dube, 21, of Hubbell, driver of the snowmobile, and Lawrence J. Darcy, 22, Baraga, were dead on arrival at a hospital in L'Anse.

Officers said the driver of the automobile, Roger R. Miron, 36, Rte. 1, Baraga, was killed in the Baraga County jail for being drunk and disorderly. Troopers said investigation is continuing and the prosecutor's office is being contacted.

Miron's car was westbound on M-38 (old M-35) when it swerved off the right side of the road into the ditch, striking the snowmobile. The snowmobile was eastbound in the ditch, officers said.

Another snowmobile in the party on which Dube's wife was riding nearly was hit, officers said.

The accident happened at 12:20 a.m. today.

Escanaba Drifts Off Of Norfolk

NEWPORT NEWS, Va. (AP) — The Coast Guard cutter USS Cherokee was en route today to lead another coast guard vessel, the Escanaba, reported to be disabled 200 miles southeast of Norfolk.

A Coast Guard spokesman in the Search and Rescue Center at Portsmouth, Va., said the Escanaba reported its engines had failed late Thursday afternoon and that she was drifting in moderate seas in fair weather.

Proxmire Reads Memo On How To Fire Expert

WASHINGTON (AP) — Sen. William Proxmire, D-Wis., coaxed an Air Force official into insisting that no retaliation was planned against an efficiency expert who revealed a \$2 billion Pentagon error in estimating the cost of a new plane, then dramatically read into the record a secret memo detailing three ways to fire the man.

The senator, chairman of the Joint Economy subcommittee and a persistent critic of Defense Department procurement practices, called the memo "the most shocking retaliation against a public servant I have seen in the 11 years I have been in the Senate."

Proxmire said it "directly contradicted" pledges by Air Force officials that no action would be taken against the efficiency expert, A. Ernest Fitzgerald, who disclosed the \$2 billion over-run in earlier testimony before the subcommittee.

The incident occurred Thursday during a subcommittee

LONDON (AP) — The Labor government outlined today a politically dangerous plan to curb wildcat strikes and reorganize Britain's union structure. It includes provisions for a cooling-off period and fines.

The program was contained in a government white paper the main provisions of which, already had been leaked through discussions with business and union leaders. Both objected vigorously—the unions because they felt it too strong, management because it wanted tougher sanctions against strikes.

Productivity Minister Barbara Castle took the program through the Cabinet over opposition from some of its union-oriented members.

Staking her political reputation on it, she began appealing for support within her party before the white paper was published. She called a meeting to explain the proposals to 135 Labor members of Parliament who are backed by unions. They were summoned back to London before Parliament reassembles on Monday after its Christmas recess.

Final details of the proposed new labor law were not given in the white paper. But they are not expected to be enacted at least until fall—and then only if rank and file labor MPs can be held in line.

The white paper zeroes in on wildcat strikes—Britain's "tea break" strikes over petty grievances which usually reflect revolts against union leadership or management and account for 95 per cent of all stoppages.

Most are short and sudden, but can immobilize the economy. Statistics in the white paper showed them concentrated in strategic export industries—the docks, the motor industry, shipbuilding and the coal mines.

The government's program is based on the argument that many such strikes are the result of failure to use regular grievance machinery, or the lack of

Weather

ESCANABA AND VICINITY—Today, becoming partly cloudy and a little cooler. High this afternoon in the high 30s. Tonight, mostly fair and colder, low about 15. Saturday becoming cloudy and not much temperature change with snow developing, high in the mid 30s. Sunday's outlook is for snow flurries and colder. The highest temperature yesterday was 35 and the overnight low was 28. Winds westerly 8 to 18 mph today and variable tonight becoming northeast 10 to 22 mph Saturday. Precipitation probabilities today and tonight, 10% and Saturday, 60%.

Upper Peninsula — Cloudy with chance of snow flurries mostly near Lake Superior and steady or slowly falling temperatures this afternoon. Partial clearing tonight and a little colder, lows 5 to 15. Saturday cloudy with light snow likely, highs in the 20s.

Sun sets today at 4:33 p.m., and rises Saturday at 7:24 a.m.

THE SOVIET UNION launched Soyuz 5, carrying rookie cosmonauts Boris Volynov, Alexei Yeliseyev and Yevgeny Khrunov, to rendezvous with cosmonaut Vladimir Shatalov who hurtled into earth orbit aboard Soyuz 4. Photo from Tass. (AP Wirephoto via cable from Moscow)

Soviets Land Spacecraft

MOSCOW (AP) — Three Soviet cosmonauts in the spaceship Soyuz 4 landed in the snow and howling winds about 1,500 miles southeast of Moscow today. The temperature at the landing site was 31 degrees below zero.

Soyuz 5 with cosmonaut Boris Volynov remained in orbit. Tass news agency said the crew, two of whom had transferred to Soyuz 4 from Soyuz 5 after an orbital linkup Thursday, landed about 25 miles northwest of Karaganda in Kazakhstan.

It reported that villagers rushed through the snow with overcoats to protect the spacecraft from the biting cold.

"How are you feeling, dear boys?" one asked them.

"No words can express it. . . . Very glad. Extremely happy," a cosmonaut replied.

The cosmonauts climbed

aboard a helicopter and were

flown into the steel-making city

of Karaganda where they will be put up in the Chaika—Seagull—Hotel temporarily, Tass reported.

Tass said a recovery helicopter had first spotted the descending spaceship and a crewman shouted over the radio to ground control: "I can see them."

The first ship to land was commanded by Vladimir Shatalov, who was launched into orbit Tuesday. Two days later he was joined in his cabin by Alexei Yeliseyev and Yevgeny Khrunov, who climbed aboard from Soyuz 5—achieving the world's first crew transfer in orbit.

Parachute Descent
Radio Moscow said Volynov reported from space after the landing of his comrades that he "feels excellent." There was no immediate report on his plans for a return to earth.

Soyuz 4 docked in orbit Thursday with Soyuz 5, and then separated after transfer of the two

crewmembers. The feat was reported here as a step toward creation of long-term space laboratories.

The radio broadcast said Soyuz 4 landed in the "predetermined region" at 1:53 a.m. EST, after a "smooth" parachute descent through the earth's atmosphere.

The three cosmonauts, in preparation for their landing, had strapped themselves into their seats. Then commander Shatalov made manual adjustments in the craft's position and fired a re-entry blast from the ship's rocket.

"The ship then made a controlled descent through the atmosphere," the announcer said.

After the rocket was switched off, he added, Soyuz 4's crew capsule was separated from the working quarters, and the two sections plunged separately into the atmosphere.

Stowed Away
Recovery crews, "friends and journalists were the first persons to greet the returning cosmonauts," he said.

Tass reported the cosmonauts had stowed all scientific instruments, films and cameras in the landing capsule, then it was separated from the ship's working quarters.

The storage insured safe return of data gathered during the mission. Tass gave no details on the fate of the empty working quarters, but they presumably were intended to burn up during re-entry.

Tass later reported first details of the new self-sufficient space suits worn by the two cosmonauts who made the transfer Thursday.

The suits contain compartments in the legs that carry an oxygen supply system, heating elements and a ventilation system for pumping warm or cool air into the space suit. The temperature of the air is automatically controlled by a mechanism built into the suit.

No Oxygen Hose
The Tass description of the suit made it clear that the cosmonaut could move around in orbit without the oxygen hose connected to the ship's air supply. It did not say how long he could survive independently in space.

The Soyuz mission has been described as a step toward construction of an orbiting space platform. A Soviet engineer wrote in today's Pravda that Soviet space scientists consider it "much more sensible" for cosmonauts to operate from an orbiting platform instead of making an earth launch every time.

Romney Given Unanimous OK

WASHINGTON (AP) — Asserting firmly that "I will" be the one in the Nixon Administration to speak out on the needs of cities, Michigan Gov. George Romney won unanimous informal approval Thursday to be the next U.S. secretary of housing and urban development.

Romney is expected to receive formal confirmation from the Senate Banking and Currency Committee and the Senate without difficulty after the inauguration of President-elect Nixon Monday.

The outgoing Michigan governor said he would take no orders from Daniel Patrick Moynihan, who has been named Nixon's assistant for urban affairs. "I don't visualize Moynihan having operational responsibilities, or telling members of the cabinet what to do. Nixon has made it clear that there will be no chief of staff in the White House telling us what to do," Romney said.

Credit Squeeze
Romney said as the new leader of HUD, he would strive for "large scale production of housing, particularly for low and middle income families."

He also announced a campaign "to improve the quality of life in this country both in

the big cities and in the small towns."

However, he told the committee he believes the nation faces a "credit squeeze in the next few months which can adversely affect the amount of housing constructed this year."

He also said he would lead a campaign to get big business interested in the housing industry, to enlist the aid of unions and to push his "sweat equity" concept to give the poor the money and opportunity to build their own houses and contracting businesses in the ghettos.

Oppose Cuts
He also said he plans to name "one black assistant secretary and one white assistant secretary and if I can find room for a brown one, he will be named."

The New York Times later reported it had learned from an informed source the top HUD undersecretary would be Detroit attorney Richard C. VanDusen, who has been a close aide and adviser to Romney for six years.

Romney also indicated he would oppose any cuts Nixon may want in the HUD funds recommended in President Johnson's last budget.

"I don't think we can do with any less funding," he said.

Romney's Claim Angers Mayor

DETROIT (AP) — Detroit Mayor Jerome Cavanagh reacted angrily to a claim by Gov. George Romney Thursday that urban renewal programs led to an overcrowding of Detroit's 12th street area and in turn sparked the 1967 riots.

Romney told the U.S. Senate Banking and Currency Committee in Washington that if urban renewal programs continue to push people from their homes, that guerilla warfare could hit the cities.

In testimony regarding Romney's impending Senate confirmation as the new secretary of housing and urban development in the Nixon Administration, the governor said both highway land clearing and urban renewal programs overloaded the 12th street area, the center of Detroit's riot.

Contacted in Detroit, Cavanagh commented quickly, "We had no urban renewal programs of any kind within three or four miles of the 12th street area."

"You can't say urban renewal was the cause of the riot," Cavanagh said, adding "you might blame it for the (population) density in the area."

"That's the first time I've ever heard anyone suggest urban renewal was the prime source of the riot," the mayor said.

Motorist Denies Drunk Driving

James H. Edwards, 29, of 1605 11th Ave. N., entered a plea of not guilty in Delta District Court today to a charge of driving an automobile while under the influence of liquor or drugs, and will receive trial Jan. 27.

Escanaba police arrested Edwards in the 1600 block, 11th Ave. N., at 12:40 a.m. today, and lodged him in jail. His vehicle was not involved in an accident.

AFTER THE STORM this car peaks out with only one headlight, waiting to be shoveled clear so that it can get back into circulation. Unfortunately, if the owner parks it on the curb strip (as many do in Escanaba) the passing plows will close the exit — a situation that can't be helped if streets are to be plowed. (Daily Press Photos)

On One Side Only:

Parking Restricted In Snow Emergency

With exception of certain downtown areas, parking will be allowed in Escanaba only on the WEST side of STREETS and on the NORTH side of AVENUES.

The emergency declaration was adopted by the City Council Thursday night, in effect today, and will continue for 60 days.

Police Chief Richard Frederick and Fire Chief Palmer Derouin issued the emergency order under authority of the city traffic ordinance.

"In order to better control the flow of traffic to ease the parking situation and to expedite the movement of fire equipment and emergency vehicles, it is hereby ordered that parking shall be restricted to one side of each and every street and avenue in the City of Escanaba in accordance with this schedule:

"1 — Henceforth, parking will be allowed on the west side of all streets.

"2 — On the avenues, parking will be allowed on the north side of the avenue.

"This order is in full force and effect from 7 a. m. until 2 a. m. The present parking limitations, from 2 a. m. until 7 a. m. are still in full force and effect and will not be changed.

"The only exceptions to the above restrictions are where limitations are now in effect through proper signing.

"On the public parking lots, all parking limitations have been lifted.

"On Ludington St. and the 100 blocks off Ludington St., parking will be allowed on both sides of the street with the exception of S. 15th, S. 16th, S. 17th, S. 18th, S. 19th and S. 22nd."

Mayor Cecil B. Chase presided at the Council session at which City Manager George Harvey made a report on the

snow emergency situation and recommended adoption of the parking order.

The problems of keeping streets cleared for traffic and in removing snow are city-wide, Harvey told the Council.

"Doing Our Best"

The city's V - plow makes too narrow a trail in the alleys for garbage trucks to get

Three Times More

The cost of snow removal in Escanaba to the payroll period ending Jan. 10 is three times as much in expenditures for labor as it was for the same period last winter, reports City Manager George Harvey.

"We spent about \$10,000 for labor to that date this winter compared to about \$3,300 a year ago," he said.

The expenditure figure is for labor only does not include equipment costs. There have been a number of equipment breakdowns because of the high volume of work, and repair costs are also not included in the \$10,000 figure.

through and the big street plows are much too wide. Therefore the residents (except Ludington St. business houses are to bring garbage to the street curb for pickup until further notice.

Harvey reported that widening of the streets is beginning and that this will mean residents will have to dig out driveways after the plows pass — but there is no alternative.

There are 60 miles of streets in Escanaba and crews have a big job, said Harvey. "We hope the people will bear with us because we are doing our very best."

The city manager reviewed for the Council what is being done to keep traffic moving, and noted that the Municipal Airport was closed Thursday

"because all of the airports in the U. P. are closed" but the runways will be plowed today.

Test Basin Bottom

Alley plowing is most difficult because "there is no place to put the snow" and some garages could be damaged and the only solution is to move in the snow - loader and hal the snow away.

In connection with sidewalk plowing in the 600 block of N. 18th St., about which a complaint had been voiced to the Council by Stan Johnson of that

Talks Reopened In C&H Walkout

HOUGHTON — The first break in two months in the lengthy strike at the Calumet Division of Calumet & Hecla appeared Thursday as two conciliators reopened talks.

Walter Quillico of Iron Mountain is mediating for the state and George Vogl of Green Bay, Wis., is representing the federal mediation service.

Meetings reopened Thursday at the Douglas hotel here. The fourth and most recent mediation session ended without result Nov. 25.

Ship Is Hauled Off Of Sandbar

MIAMI, Fla. (AP) — Lightened by the departure of her 471 passengers and 202 of her crew, the British cruise ship Carmania was hauled off a sandbar in the Bahamas today, five days after she ran aground.

As three rescue tugs strained and roared, the 14-year-old liner slipped loose from a reef just off the island of San Salvador. The Carmania is scheduled to go to Newport News, Va., for repairs.

The ship started taking on water Thursday but Staff Capt. Peter Jackson of the Cunard Lines vessel said little water was seeping into the hull. He said 265 crewmen remained aboard the 608-foot-long liner.

WIDENING OF STREETS and the removal of snow at intersections are major problems for Escanaba's public works crews. This necessity for it from the standpoint of safety is indicated in this picture along the 3rd Ave. N. truck route, where high snowbanks dangerously reduce visibility and hamper the movement of traffic.

street, Harvey reported that autos are parked in front yards and that sidewalk plowing would be impossible. There is no sidewalk plowing anywhere in the city until the street situation is improved, he added.

Mayor Chase said that he feels the city crews are doing a "real good job" but asked that more attention be paid to clearing streets in the areas of elementary schools.

Councilman Miles Dupue mentioned the need for citizens to cooperate in the snow emer-

gency by removing snow from around the fire hydrants in their neighborhoods.

In other business the Council authorized the city manager to employ Soil Testing Service, Green Bay, to do tests in the yacht basin cost not to exceed \$1,500. The tests are necessary in planning development of new piers at the basin in a program financed cooperatively with the Michigan Waterways Commission.

Parallel Parking

The purchase of two police patrol cars from Riverside Auto Sales at a net cost to the city of \$3,794.18 was approved on recommendation of the manager.

A recommendation of the Safety Advisory Committee to change parking from angle to parallel on 3rd Ave. N. between 10th and 23rd St. was accepted by the Council.

The Council adopted a reso-

lution recognizing Jaycees for their community work and the founding of the organization observed the week of Jan. 19-25.

The city manager reported to the Council that parking lot contributions from merchants and property owners to the downtown parking lot project *Aquo uiia „adeus poos up are*, one pledge not being met. Mayor Chase asked for a progress report at the next meeting and said the name of the delinquent might be announced at that time.

A resolution pledging the city's cooperation to the new Delta County Board of Supervisors was also adopted.

City Appoints Board Members

The appointment of Escanaba citizens to several boards and commissions to fill vacancies was made by the City Council Thursday night.

Algot Gustafson, 1409 7th Ave. S., was appointed to the Safety Advisory Committee to fill a vacancy caused by the resignation of Howard Acker; and Edward O'Leary of 303 Stephenson Ave. to the Library Board, from which Charles Tooman resigned.

Reappointed to the Board of Review were Matt Smith and Roy Jensen, with Wesley Hansen a new member.

In discussion the Council approved a motion by Councilman Miles Dupue to consider amendments to the charter at a future meeting, including the amending of the section establishing representation on the Board of Review.

Commission OKs Appointments

The Civil Service Commission has approved the appointment of several persons to city positions following a report of civil service examinations at a recent meeting.

Howard Smale, administrative assistant, said that Dennis Tushak, previously of the U.S. Marine Corps, qualifies as an engineer assistant; Ralph Johnson, lineman; Rosemary Sankovich, account clerk in the controller's office; Theodore Dart, equipment repairman.

State of Michigan, County of Delta, ss
Sworn to and subscribed before me this eighth day of November, 1968, and I hereby certify that I am not an officer or director of this bank.
My commission expires January 19, 1971. Dorothy E. Lewis, Notary Public.

Michael Mahon Appointed To Mental Health Staff

Dr. David R. Wall, director of the Community Mental Health Program, announces appointment of a psychiatric social worker, Michael Mahon, to serve Delta County with comprehensive mental health services on a full-time basis.

He is at the Escanaba Mental Health Center, Doctors Park, and will be working with other social workers, psychologists, and a psychiatric team from the Marquette Mental Health Center which visits the Escanaba Clinic on a weekly basis.

Mahon, formerly held the position of Upper Peninsula special projects coordinator for the Michigan State Department of Social Services with offices at Marquette.

He received a bachelor's degree in liberal arts from St. Paul Seminary, St. Paul, in 1957 and a master's in social work from Catholic University, Washington, D.C. in 1962. In addition, he has had extensive experience and education in social welfare administration in the Upper Peninsula as supervisor of the Menominee and Dickinson County Bureaus of Social Aid, field supervisor in program operation for all public assistance and children's services in the eight western counties of the Upper Peninsula, staff development supervisor for the Upper Peninsula, assistant chief of staff develop-

Michael Mahon

ment statewide at Lansing.

As special projects coordinator, Mahon was Upper Peninsula director for the U.P.-wide Work Experience and Training Program for public assistance recipients and was also responsible for special services to U.P. Indians. Prior to this he held clinical social work positions at Veterans Administration Hospitals in Wilmington, Del., To-mah, Wis. and at the Child Study Center, Catholic University, Washington, D.C.

Mahon is from Iron River, Mich. He is residing at 907 S. 11th St.

The Community Mental Health Center for this area has its offices on the ground level floor of the new Medical Building, Doctor's Park, telephone 786-6441 or 6474. Office hours are from 8 a.m. to 5 p.m., Monday through Friday. Mahon will provide mental health services, as required, for both adults and children, and will perform under the direction of Dr. David R. Wall, psychiatrist-director of the Alger - Delta - Marquette Mental Health program.

Fred Savord Dies Thursday

Fred Savord, 86, of Hermansville died at 6 p.m. Thursday at the Roubal Nursing Home. He was born Jan. 7, 1883 in Canada and was a retired farmer.

Mr. Savord lived in Hermansville most of his life and was a member of St. Mary's Church. He never married.

He is survived by two brothers, William of Vulcan and John of Hermansville; six sisters, Mrs. Charles LaRuche of Hermansville, Mrs. George Helgren of Ishpeming, Mrs. Leah LaFave of Wilson, Mrs. Chester Belmore of Garden Grove, Calif., Mrs. Jenny Morlock of Faithorn and Mrs. Bertha Leneau of Oconto, Wis.

The body has been removed to the Kell-Tondin Chapel in Spalding and funeral arrangements are incomplete at this time.

Powers-Spalding Attend Wedding

Mr. and Mrs. William Arnold, Edward Arnold, Miss Joan Arnold, all of Hermansville, Mr. and Mrs. William Nelson of Powers, Mrs. Alton Larson and daughter, Brenda, of Houghton, Mr. and Mrs. Eugene Stockero of Port Washington, Wis. attended the wedding of Miss Mae LaCosse, daughter of Howard LaCosse and the late Mrs. LaCosse and David Joerndt of Antigo.

The wedding took place in Trinity Lutheran Church in Menasha, Wis., Saturday, Jan. 11, at 2 p.m. The reception dinner was held at 5 p.m. at the Darboy Club in Darboy.

Retailers Plan Special Events

The Retail Division of the Escanaba Area Chamber of Commerce planned promotions from January through July at their meeting held Thursday noon at the Sherman Hotel. Mrs. Angeline Hakes, chairman, conducted the meeting.

Kick-off for the new year's events is a January End of the Month Sale. A style show was scheduled for Monday and Tuesday, Feb. 17 and 18 to be held in conjunction with the WDBC cooking school in the William W. Oliver auditorium.

Other events scheduled include the Washington's Birthday sale, a Pre-Easter showing of spring merchandise in March, an April Coupon Day, a June Moonlight Madness promotion and the popular July Sidewalk Day.

The Retail Division of the Chamber is exploring avenues to combat the crime of shoplifting.

Elk ranged farther than any other hoofed game animal on this continent long before the settlement of the United States.

Hoyer Chairman Of U.P. Power

At the regular quarterly meeting of directors of the Upper Peninsula Power Co. at Houghton, on Jan. 14, Russell F. Hoyer was elected chairman of the board to fill the vacancy caused by retirement of John H. Warden on Dec. 1. Hoyer will continue as president.

Hoyer has been associated with the electric utility industry for over 40 years, most of which has been with the Upper Peninsula Power Co. and its predecessors. He has been president and a director of the firm since 1963. Since 1966, he has been president of the Upper Peninsula Generating Co., which is jointly owned by Cleveland-Cliffs Iron Co. and the Upper Peninsula Power Co.

Hoyer's other affiliations include: Board of Control of Michigan Tech, director of Suomi College; Director of the Greater Michigan Foundation; a member of the Michigan Advisory Task Force - Upper Great Lakes Regional Commission; and a member of the Executive Committee of the Michigan United Fund.

State Delegates Chosen By GOP

Prenet and township delegates to the Delta County Republican convention held Wednesday evening at the Sherman Hotel voted for seven delegates and seven alternates to represent the county at the State Republican Leadership convention in Grand Rapids Feb. 14 and 15.

Delegates are Arthur Pope, Gladstone; John Walbridge, Escanaba; Henry Dubbledie, Escanaba; Mrs. H. R. VonBlasewics, Gladstone; Mrs. Ernest Nebel, Brampton township, and Miss Mary Woodard, Escanaba. Dubbledie is delegation chairman.

Alternates are Mrs. Arthur Pope, Gladstone; Mr. and Mrs. Arthur Neiman, Escanaba; Mrs. John Walbridge, Escanaba; Mr. and Mrs. William Huebler, Escanaba and Mrs. Harold W. Johnson, Escanaba. According to Michigan election laws, Delta County is allowed seven delegates. The county is allowed one vote for every 686 votes cast for Secretary of State in the last election and this year, Delta County is allowed one more delegate than previous years.

John Walbridge was temporary chairman of the convention until delegates elected Henry Dubbledie as permanent

chairman and Mrs. Ernest Nebel as permanent secretary. Accepting the chairmanship of the convention Dubbledie, thanked the past county officers for a job well done and asked for continued cooperation in the future.

In a unanimous ballot, dele-

gates cast a unanimous ballot to send congratulatory notices to Governor George Romney and chairman of the Republican State Central Committee Elly Peterson, as they leave their state offices.

Romney has accepted a presidential appointment as Secre-

tary of Housing and Urban Development and Elly Peterson will become a national Republican committeewoman.

At the convention delegates will vote for a Republican state chairman and vice-chairman and 11th District executive committee.

IT'S ON NOW!! THE REALLY

BIG

Memory Lane Area:

City Asks State To Improve Road

The Escanaba City Council wants the State Highway Commission to do something about the improvement of US-2-41 through the Memory Lane area westward, and adopted a resolution to that effect at its Thursday night meeting.

The Council calls the roadway a "hazardous condition" and that it is "dangerous at high speed" and that there is an irregular road bed and poor surface drainage. This latter creates "water pockets and icing conditions."

"The City of Escanaba is very anxious that consideration be given for the necessary improvement of that stretch of road, not only for safety purposes, but for a better flow of traffic to the area," the State Highway Commission was informed.

Calling for "immediate action" the Council also directed copies of the resolution to Legislative representatives, Sen. Thomas Schweigert and Rep. Charles Varnum.

The Council also adopted a resolution, directed to congressional representatives, directing attention to the city's preparations to participate in the anti-pollution effort by improving the municipal water and sewage systems.

It was critical of federal agencies that have failed to respond to the city's preliminary application for federal assistance, submitted in December last year.

The Council asked the congressional representatives for help in "securing and finalizing federal assistance for these much needed improvements."

Private Forest Taxes

Owners of commercial forests in the Upper Peninsula are proposing to the Michigan Legislature that it change the Commercial Forest Reserve Act.

They are suggesting that their taxes be raised!

Whenever anyone suggests that their own taxes be raised the wary look for a gimmick. There's a gimmick in this one, the owners of private commercial forest lands are expecting action by the Legislature to raise forest taxes and they want to get in their pitch first.

The Michigan Supervisors Association and the Michigan Townships Association have already suggested to the Legislature that it raise the present levies under the Commercial Forest Reserve Act. At present they're up to 10 cents an acre (depending on school levies) on the private owner and 15 cents from the state yearly. It's proposed that they be raised to 20 cents per acre each on the private owner and the state.

The private owners suggest instead that their tax be raised from 10 cents an acre to 15 cents and that the state's be raised from 15 to 25 cents. State Senator Thomas Schweigert (R-Petoskey) has said he would introduce this landowners' proposal in the form of a bill and the Michigan Department of Natural Resources has given tentative approval to the plan.

Senator Schweigert is a professional forester and understands the issue. Our concern here is with the public, which may think because of the differing suggestions of the township and county officers and those from the forest land owners, that the latter are trying to get a private benefit at public expense.

The private owners are obviously trying to protect themselves, but it so happens that their position is in the public interest and should have public support. The operation of their private forests is vital to the wood industries of the state and the state can very well make a larger annual contribution to the commercial forest reserve tax than the owners because the state gets a big benefit in the public access to these forest reserve lands for hunting, fishing and other recreation.

The recent Wood Fiber Symposium of the University of Minnesota at Duluth put the role of private forests in the Lake States' wood industry in clear focus. George Banzhaf, president of George Banzhaf & Co., Milwaukee, nationally famed wood industry consultants, testified:

"The earnings of a forest property on the basis of its present day value are limited by forest growth (although the possibility of value appreciation should not be overlooked). A new paper mill investment is normally expected to earn at least 10 per cent after taxes, but a forest rarely earns more than 3 per cent on its present day value. It follows that the more timberland a company has, the more its overall earnings are diluted.

"The question, then, is how much timberland is enough? In our opinion a paper mill buying a forest property is not really making an investment in the standard sense, but is buying wood insurance. So far as Minnesota is concerned, the question is not only how much timberland is enough, but can that need be satisfied in Minnesota if an institutional investor should require it?"

Industries own only 4 per cent of Minnesota's total forest area, compared with 6 per cent in Wisconsin and 15 per cent in Michigan. Other speakers suggested that Minnesota, because of its large acreage of government forests and small acreage of industrial forests and the virtual impossibility of putting together a large forest acreage for a new industry, is not well set up to attract new forest industry.

A large wood industry needn't have its own wood supply sources but mills are such multi-million dollar investments today that most of them want some forest land of their own to fall back on in emergencies for the "wood insurance" of which Banzhaf speaks.

Michigan forest taxation policy should make it possible for our industrial forests to be economically healthy as a vital element in our wood industry economy. Banzhaf says that commercial forests only earn 3 per cent and that's a very low return on investment today, too low a return. It has forced many forest land owners to list their properties under the Commercial Forest Reserve Act, which permits taxation at less than ad valorem (general property) tax rates in the period when timber is growing. When the timber is cut the owner pays 10 per cent of the yield in a severance tax to equalize the tax leniency during the period of growth.

This law was enacted to encourage the private ownership of forest lands to provide wood for industry and recreation for the public, which is freely admitted to all commercial forest reserve lands.

The current pressures for more income from forest lands rise not from any greatly increased earning power of those lands, but from the need of government for more taxes.

The Legislature should enact the 15-25 cent tax raises on private forest lands under the forest reserve act to help development of wood industry, to encourage private ownership and to reward it for its big contribution to the state's recreational resources.

BARBS By PHIL PASTORET

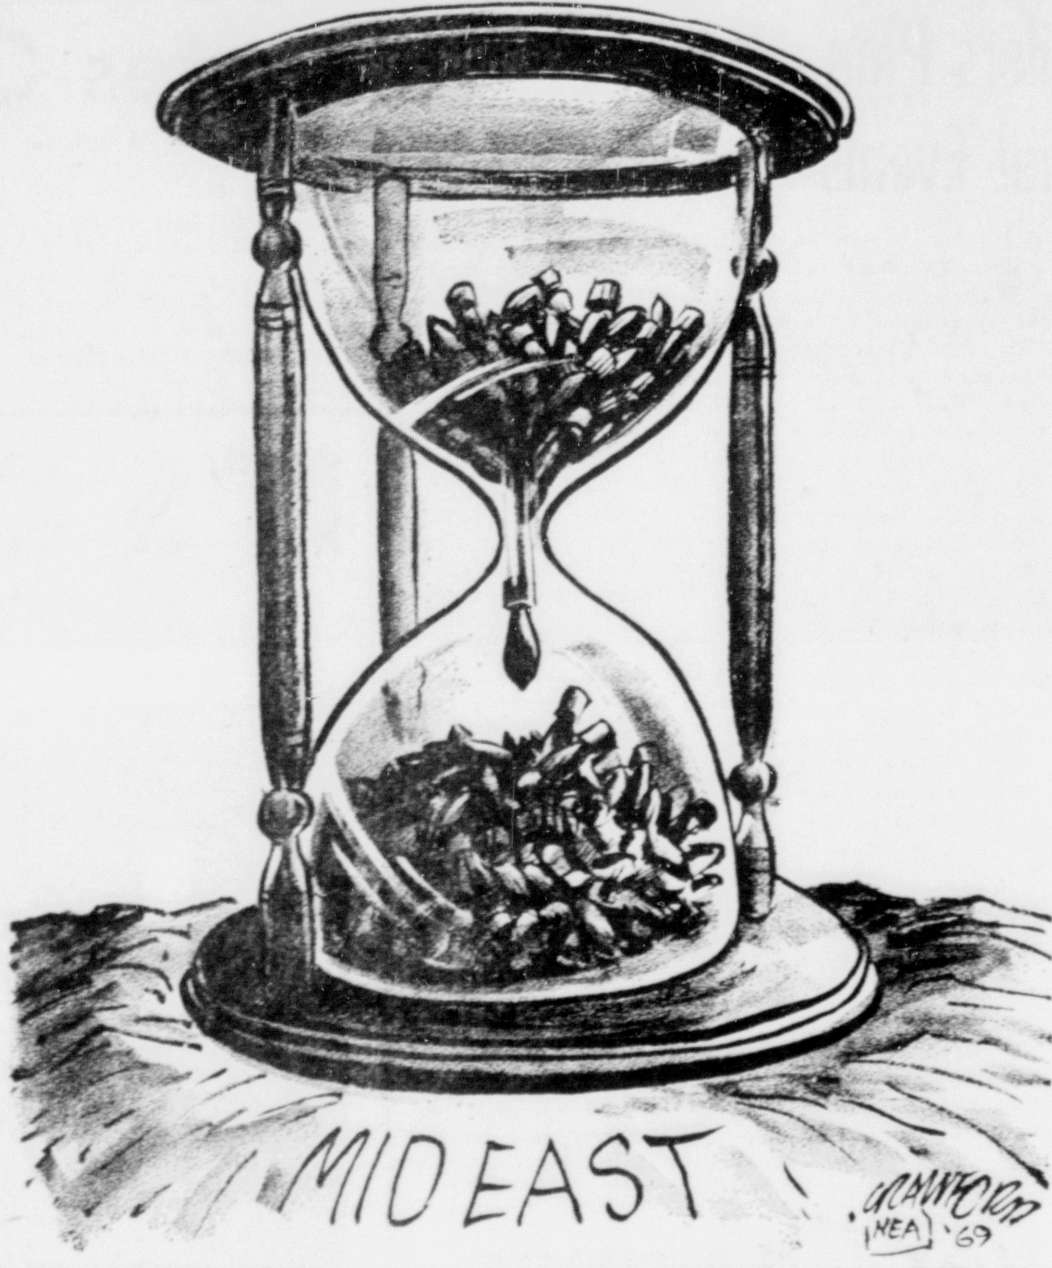

Relatives of the fellow who insists on driving after drinking may find, one evening, that he stopped after work for a fast bier.

After viewing some of the way-out art at the museum, one might well conclude that all some artists can draw is their pay.

It's about time for parents to choose up sides for the Little League baseball season.

The television actor who scorns money for art most likely is drawing beaucoup income from earlier video ventures.

The Sands of Time

Letters

AGONY

At a recent manslaughter trial, insinuations were made against the Gladstone Police Department and against the parents of the boys involved in the accident.

We have been under the impression that the laws were made to protect all of our citizens. If so, why weren't the parents of the boys allowed to testify? If, as the attorney for the defendant insinuated, the parents of the boys were negligent and should be prosecuted, why weren't they allowed to tell their side of the story?

If we cannot expect our rights to be protected because a member of the family is a Gladstone policeman, and because we know most of the men on the police force, then we must move away from this area. We have no choice.

If, we had been given a chance to testify, we would have told the jury that the case was never discussed, neither between the arresting officers or the police member of the family. Our 12-year-old son was instructed to tell only the truth because this is what God wanted. This boy was at the accident scene on a different bicycle.

As for me, I will live with the knowledge that I was negligent when my sons asked to take their bicycles fishing. I told them no, it would be better if they walked. I didn't explain my reasons; therefore, I was negligent. We never knew Tommie had taken his bicycle, and would meet another friend with a bicycle.

Our sons knew it was wrong to ride double, but they were a little late coming home and bicycles are so much faster than walking. It was pointed out to the children (they) should ride on the safest route possible. We agree. But 9th St. is the only street that goes all the way to the fishing spot the children used. All other streets lead to a large field where riding a bicycle is next to impossible.

To lose a child is a horror almost unbearable. Many times we have prayed for death to take away the agony, and yet when spring comes, we must let our other sons ride their bicycles, go fishing and swimming, because this is natural for boys. And so I ask you parents, how do we make our streets safe for our children?

Please tell us.
Mr. & Mrs. Richard McKnight
601 Delta
Gladstone

Editor's Note: The accident involving an automobile and two boys on a bicycle, one of whom was killed, resulted in a trial in Delta County Circuit Court in which the defense for the driver, who was accused of manslaughter, questioned the propriety of the boys riding a bicycle in near darkness (the accident happened about 8:50 p. m., May 13, 1968), riding double and without a headlight, etc.

(Parents of the two boys on the bicycle did not testify at the trial as their names were not included in the original list of witnesses required to be filed with the court. Prosecutor John Beauchamp moved to have the names of the mothers added to his list of witnesses, he said, but the motion was denied by the court. The driver of the car was acquitted after a three-day trial.)

Romney Favors Private Funding

WASHINGTON (AP)—Michigan Gov. George Romney said today private resources must be included to get "some real production" in housing.

Romney told the Senate Banking and Currency Committee he believes the nation faces a "credit squeeze in the next few months which can adversely affect the amount of housing constructed this year."

Romney got a friendly welcome from the committee, which is considering his selection by President-elect Nixon to be Secretary of Housing and Urban Development.

Both Michigan senators, Democrat Philip A. Hart, and Republican Robert P. Griffin, praised him. Romney, a Republican presidential hopeful at one point early last year, also was endorsed by Sen. Wallace F. Bennett, R-Utah.

Romney said he is impressed with the challenges and opportunities facing the department but added that he is concerned that "people may have been led to expect greater results than are realistically likely to be achieved soon with available resources."

The governor said that Nixon had asked him to be responsible for stimulating the voluntary participation of Americans in meeting their needs and solving their problems.

Car Production Continues Climb

DETROIT (AP) — The auto industry continued to quicken its production pace this week as output climbed to 197,821 cars for the period, compared to 194,455 the previous week.

Production for the same period a year ago totaled 183,680. Saturday work was scheduled for seven plants, as against eight last week, according to Automotive News.

So far in this calendar year, the industry has produced 473,259 cars, off sharply from the 534,181 turned out at the corresponding stage of 1968.

Truck output totaled 30,395, down slightly from last week's 40,575 and 36,020 in the same period a year ago. The monthly total climbed to 96,330, compared with 101,088 in 1968.

Acting Gov. Kelley Quips About Job

LANSING (AP)—Acting Gov. Frank Kelley outlined goals for his four-day administration Thursday in a tongue-in-cheek announcement.

Kelley is acting governor because Gov. George Romney is in Washington, Lt. Gov. William Milliken is in New York and Secretary of State James Hare is in Europe.

Saying his administration is "action packed," Kelley announced plans to hold an inaugural ball in the Capitol Thursday night. It would be followed by a second inaugural ball in the Upper Peninsula Saturday, when he would advocate lifting all tolls on the Mackinac bridge.

He will give his State-of-the-State address today, he said, outlining his views on parochialism and endorsing a proposal for a 100,000-seat stadium for Detroit.

In his farewell address Monday, Kelley said, he will revoke all his views on parochialism, bridges and a stadium in his farewell address.

Today's hand was played by Oswald Jacoby in the semifinals of the 1965 Vanderbilt. It helped our team win that match and then go on to win the tournament. The hand presents the same sort of problem that declarer had in yesterday's made up hand and proves that at bridge, truth is just as strange as fiction.

Ira Rubin's jump to five diamonds was a trifle optimistic but if Jacoby had held some value other than the club king the game would probably have been lay down.

West opened the ace of clubs and shifted to his singleton trump. Jacoby won in dummy and led the four of spades. East played the eight and, after considerable study, Jacoby played the nine.

(Note from James Jacoby: "The study was three seconds. Dad may be getting old but he is still the fastest player in the world.")

The rest of the play was routine. West was in with the queen. He couldn't lead a second trump and played his queen of clubs. Jacoby ruffed, thought for a second and played his king of spades. West ducked quickly but it did no good. Jacoby discarded from dummy, ruffed a small spade to drop West's ace and made his doubled contract.

The play was brilliant but like many such plays, it was made possible by a defensive mistake. Had East played either the jack or 10 of spades on the first spade lead Jacoby would have no chance to make his contract.

There was a lot of postmortem speculation about what would have happened if East had started with jack-10-eight-small in spades and played the eight the first time and the 10 the second. Jacoby had an answer: "If he were that good, he would have set me on a hand that could have been made. Mistakes occur far more often than such brilliancies."

The governor said legal advisors told him they couldn't see any conflict.

"As far as I know I have no investments in firms directly involved in this field," Romney said.

People, Events Of Yesteryears

Rubens Painting Reported Stolen

LAREN, Netherlands (AP) — A small wood panel painting by Flemish artist Peter Paul Rubens—1577-1640—valued at \$69,500, has been stolen from the Singer museum here, police reported Wednesday night. The painting of a stigmatized St. Francis is owned by an Amsterdam doctor who loaned it to the museum.

Ann Landers

Girl Has Trouble With Sex Salesman

Dear Ann Landers: I was brought up by old-fashioned parents and I guess you'd be justified in calling me square. I'm a college sophomore and the only girl on the floor of this dorm who is a virgin. I grew up believing I should save myself for the man I marry, but these past few weeks have caused me to reconsider.

The big question, now that I have fallen in love, is this: Is it unrealistic to expect a young man to suffer the anxieties of frustration because his fiancée happens to believe as I do? Furthermore, will my rigidity cost me a wonderful husband?

Jack says the divorce rate scares him to death. He says he loves me but he's afraid we might not be sexually compatible. He feels we should find out before we marry. He has also suggested that I might be frigid. Last night he added another barb when he said, "A girl who teases is sadistic and immature."

You seem to have an answer for everything. Please tell me how to say no to a sex salesman with whom I happen to be in love.—NEED YOU

Dear Need: Here's your answer: "My body belongs to me and I don't owe you experimental privileges or an undress rehearsal."

What happens to your body is your responsibility and it is also your problem if something unplanned should occur. Jack's theory that it is smart to try things out to see if they work before you "buy" is rubbish. A salesman once sold me a vacuum cleaner that worked beautifully during the 30-day trial. For some mysterious reason it fell apart two days after the trial period.

Dear Ann Landers: Yesterday the couple next door had a terrific argument. We could hear them screaming at each other although our houses are two lots apart. My husband and I went to the front door to investigate.

Quick as a flash, their 3-year-old boy came dashing out the front door and ran into the street, directly in the path of an oncoming car. Fortunately, the driver was alert and stopped in time.

The child's father didn't say one word to him. Instead he yelled some obscenities at the driver. (He should have blessed him!) The driver just shook his head as the father shouted, "You rotten —, a child always has the right-of-way!"

Last year a trailer hit my car. I was driving slowly and carefully. According to the police, I had the right-of-way. But our little girl is dead, and she was all we had. That neighbor's boy could have been dead, too, yet he babbles about "right-of-way."

Every day pre-schoolers who should not be out alone are killed by cars. They don't know anything about "right-of-way." Where are parents' values? What could be more important than the life of a child? Please print this for parents whose children are still alive.—A GRIEVING MOTHER

Dear Mother: I appreciate your letter and know it will cause thousands of parents to pause for a moment and think in terms of the safety of their own pre-schoolers. You will never know the good you have done by writing. Thank you.

Non-Compliance To Safety Rules

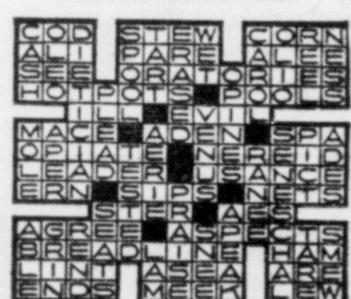

DETROIT (AP)—The possibility that some auto and tire manufacturers may be charged with violating safety standards was mentioned by Frank Armstrong, director of Performance Analysis at the National Highway Safety Bureau. "There are indications of non-compliance," Armstrong added Wednesday, but he would not say whether any citations would be issued.

Legion Auxiliary Plans Bake Sale And Card Party

BARK RIVER—Plans were made for a bake sale at the meeting of the Rheume-Knauf American Legion Auxiliary meeting held Monday night in the Legion Hall. The sale will be held Saturday, Feb. 8, at 11 a. m. at Adam's Grocery. Chairman Mrs. Kenneth Taylor will be assisted by Mrs. Edward Motto and Mrs. Martin Kwarciany.

A card party is tentatively planned for Saturday, March 15, at the Legion Hall. Further announcement will be made when plans are completed.

On Nov. 25, the Auxiliary presented a wheel chair to the Veteran's Administration Hospital in Iron Mountain. On the same day the following ladies assisted with the games party for the patients there: The Mesdames Betty Olson, Martin Kwarciany, Edward Motto, Arthur Fournier, Philip Norman and Hector Larson.

Mrs. Joseph Langlois, rehabilitation chairman, and the Mesdames Edward Motto, Leslie Sundquist and William Peltier, brought a number of gifts to the VA Hospital in Iron Mountain for the Christmas Gift Shop and assisted the patients with gift selections and wrapping.

All Auxiliary past presidents are requested to meet at the home of Mrs. Leslie Sundquist on Monday, Jan. 20, at 7:30 p. m. to organize a past presidents club.

Announcement was made of the Upper Peninsula Mid-Winter Conference which will be held in Negaunee, Jan. 31, Feb. 1, 2. Delegates will attend, weather permitting.

Lunch was served by Mrs. Hector Larson, Mrs. Edward LeBeau and Mrs. Dan Levesque.

Mrs. Steven J. Bigelow

Susan A. King Bride Of Steven J. Bigelow

Susan Abbie King, daughter of Mr. and Mrs. John S. King of Naubinway and Steven James Bigelow, son of Mr. and Mrs. James Bigelow of Epoufette, were united in marriage Jan. 4 in St. Stephen's Catholic Church in Naubinway. The Rev. Paul Schiska officiated at the double ring ceremony.

The bride, given in marriage by her father, wore a bouffant gown of Chantilly lace. Her petal headpiece trimmed with seed pearls secured her veil of English illusion and she carried a bouquet of yellow roses and white pompons.

Jacqueline Koboski of Naubinway served as maid of honor and bridesmaids were Gwendolyn Miller of Engadine, Lori Bigelow of Rexton, cousin of the bridegroom, and Joyce Nichols of Royal Oak.

Moss Green
They chose gowns of moss green crepe and embellished velvet styled with empire waists and scoop necklines. Matching headpieces and bouffant veils completed their attire and each carried a bouquet of yellow pompons.

Pamela Bigelow, sister of the bridegroom, served as flower girl and she wore a floor length gown of moss green with matching headpiece and carried a basket of yellow and white pompons.

Robert Hanson of Naubinway, cousin of the bridegroom, served as best man and groomsmen were Arthur Hancock of Engadine, Leon Everhart of Gould City and John T. King of Naubinway, brother of the bride.

Mothers' Attire
James Bigelow, Jr., brother of the bridegroom was the ringbearer. Seating the guests were Gary King and Rodney Bigelow, brothers of the bride and bridegroom.

The bride's mother chose a a. m.—Junior Choir.

loden green three piece knit suit with brown accessories and Mrs. Bigelow wore a two piece Kelly green suit with beige accessories. They wore corsages of yellow roses.

Mrs. Tillie Elser and Mrs. Ernest King, Sr., grandmothers of the bride and Mrs. Frank Bigelow, grandmother of the bridegroom were also present.

Reception

Immediately following the ceremony a wedding luncheon was served at Beaudoin's Cafe and an evening reception was held for 350 guests at the Garfield Township Hall.

Assisting were Mrs. Russell Schultz, Mrs. John P. King, Cindy King, Cheryl and Cathy Belleville.

Both young people are graduates of Engadine Consolidated School. After a wedding trip through the Lower Peninsula, Ohio and Indiana, the newlyweds will make their home in Epoufette.

Story Time On Saturday

Cows, cuckoos, and people are the subjects for Story Time this week. All boys and girls of the age of three and above are invited to attend the program which will be held in the Children's Room of Escanaba Public Library on Saturday at 10 a. m.

The stories will be: "When the Cow Got Out", "The Cuckoo That Couldn't Count", and "The Man Who Never Snoozed".

Special Services To Mark Bishop Baraga Anniversary

Sunday, Jan. 19 marks the 101st anniversary of the death of Bishop Frederic Baraga, great missionary figure in the history of the American Catholic Church, and first Roman Catholic Bishop of Upper Michigan. Special services and devotions will mark the day in St. Patrick's Church.

Father James Wolf, O. F. M. Capuchin, who has been named Postulator of the Cause of Bishop Baraga by The Most Rev. Charles A. Salata, D. D., will deliver a homily on the life and work of Bishop Baraga at all Masses. A portrait of Bishop Baraga, painted in his native Slovenia, will be placed before the pulpit in a floral display.

Works With Indians

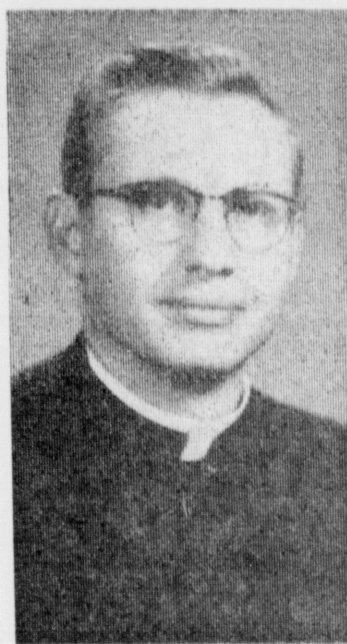

Born in Slovenia, now part of Yugoslavia, on June 29, 1797, Baraga was nine years a priest, when he came to the United States in 1830 to devote his life to the Indians of the Upper Great Lakes. He is called the Apostle of the Lake-lands.

Baraga's labors began among the Ottawa in lower Michigan near Little Traverse Bay. Two years later he moved to the pioneer site of Grand Rapids where he established another successful mission. The missionary left there for LaPointe, an island village in Lake Superior, off the coast of northern Wisconsin, in 1835.

First Bishop

There he began his monumental work among the Chippewa tribes. This last major mission was founded in 1843 at L'Anse, on Upper Michigan's Keweenaw Bay, where he remained until his appointment as bishop a decade later. Baraga was consecrated first bishop of Upper Michigan and its adjacent islands on Nov. 1, 1853.

For 37 years Baraga moved about in a vast triangular ter-

Rev. James Wolf OFM

ritory of over 80,000 square miles including areas of Michigan, Wisconsin, Minnesota and Canada. In this vast expanse of lake-land, no inlet or cove of the undulating shore was unknown to him. Traveling with Indian guides in a fragile canoe, the priest everywhere sought an abandoned people.

Sees Sand Point

In 1833 he crossed Lake Michigan to Little Detroit Island, entered Green Bay and continued to sail along the west and north shore of the Lake. This was the first time Baraga was to see Sand Point. He frequently moved up and down the shores of Bay de Noc. On

more than one occasion he almost lost his life by falling through the ice near Sand Point.

Later, in its initial development as a city, Bishop Baraga provided for Escanaba's first parishes and spiritual care. In his last days, the old Bishop expressed great interest in the future and welfare of this city.

Remains in Marquette

In American church history, he emerges as one of the truly great embodiments of the missionary vocation. Bishop Baraga died on Jan. 19, 1888, after a life filled with exalted heroism and undiminished zeal for souls. Today the remains of the missionary rest in the crypt of St. Peter's Cathedral, Marquette.

Revered in his own day, his reputation for sanctity has increased since his death. A canonical investigation is now being made into his life and labors to promote his beatification.

Visits Homeland

Rev. Wolf has been working on the Baraga cause for more than six years, has had the opportunity to visit the Baraga homeland, and last fall, to meet with officials of the Congregation of Rites in Rome.

Many additional hours have been spent by Rev. Wolf in his preparation of copies of letters and documents on the life and work of Bishop Baraga which now total more than 500 reels of microfilm which will be presented to the Diocesan Tribunal later this year.

First Methodist WSCS Plans 'Calendar Tea'

The Woman's Society of Christian Service of the First United Methodist Church will sponsor a "Calendar Tea" on Saturday, Jan. 25, at 2 p.m. Mrs. Luther Barrett will give the greetings of the Society.

Featured on the program will be violin solos by Ervin Orban, string instructor at the elementary and junior high schools; vocal solos, Mrs. Philip Lyon; readings, Mrs. Everett Erickson of Menominee; folk songs by Kristin and Ellen Foster.

Greeters will be Mrs. S. D. Robinson and Mrs. Edmund Hengesh with Mrs. John O'Neal, tea room chairman.

In charge of table decorations will be January, Mrs. John Nicholas; February, Mrs. Clinton Dunathan; March, Mrs. John Hebert; April, Mrs. Lowell Hebert; May, Mrs. Edward Edick; June, Mrs. Luther Barrett; July, Mrs. Frederic Welch; August, Mrs. John Nicholas; September, Mrs. Alvin Ness; October, Mrs. Edmund Hengesh; November, Mrs. E. G. Bennett; December, Mrs. Donald Ness.

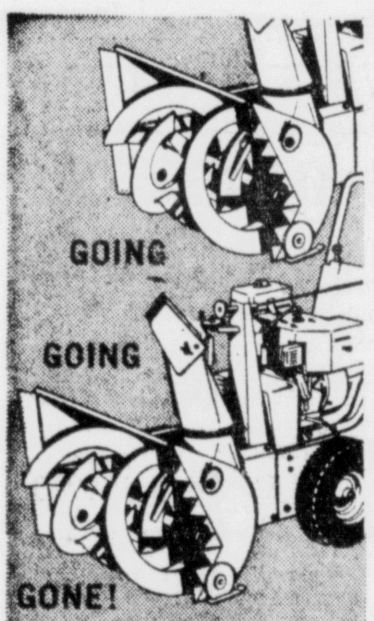

Chairman of refreshments will be Mrs. C. Ray Anderson assisted by members of the Harmony and Miriam - Abigail Circles with members of the Youth Fellowship serving as waitresses.

The affair is open to the general public and all women of the community are invited to attend.

LIVING ROOM, to the right of the entrance foyer, has large window looking out on front lawn. Garage is on other side of fireplaced wall and has separate entrance to kitchen.

EVERYTHING FITS nicely into place on the exterior of this small ranch, with traditional features giving it the desired charm and appearance of hospitality. From the front, it seems larger than it is, but it's actually designed for families with modest budgets.

Ranch Features Economy

FLOOR PLANS Because it has only 1180 square feet of living area, excluding the garage, this layout required full use of every inch of space. Architect has done good job of providing traffic circulation in both living room and bedroom wings.

By ANDY LANG
Here's a real budget house. With only 1180 square feet of living area, an important consideration in building costs, it has the additional economy feature of a completely rectangular foundation.

In designing a house of this size and shape, especially when it is to have three bedrooms, the architect faces a number of problems. Architect Herbert C. Struppman, who designed this one, feels that the highest obstacle to be hurdled is the creation of a good traffic layout. Somehow a room seems bigger if you don't have to use it to get to another room.

The traffic plan here has a center hall entry that joins the bedroom hall, a dead-end living room to the side, and a dining room at the back. A rear entrance to the kitchen via the garage means that anything can be brought in and stowed away in either the garage, broom closet or basement without disturbing the rest of the house.

With one large pane of glass flanked by small panes. The corner location of the kitchen makes for good accessibility for all service needs. While not a large kitchen, the compact L-shaped setup of counters and appliances is easy on the feet.

Occupying the opposite corner of the house, at the rear of the bedroom wing, is the master bedroom. This gives parents two exposures, as well as three closets, a private stall-shower bathroom and as much privacy and seclusion as you could expect in a much more expensive home. The two family bedrooms at the front are for the children; if it's a smaller family, one bedroom, preferably the one nearest the entrance foyer, could be used as a home office or study.

Despite the rectangular design of the exterior, the excellent detailing of materials transforms it into a residence that makes it look like something special rather than an economy model.

U.S. Uranium Bins Are Full

WASHINGTON (AP) — The government said Wednesday its cupboard is overflowing with uranium and it would like the uranium industry to ease up on deliveries for awhile.

The Atomic Energy Commission said it is seeking proposals to limit total deliveries of uranium concentrates from companies now under contract.

Declaring such a reduction would save the government money, the AEC said.

"The commission believes that a moderate reduction in deliveries can be achieved on terms which would be mutually advantageous to the contractors and the government."

The AEC said its commitment to purchase uranium under the contracts—which terminate Dec. 31, 1970—exceeds its present needs, "largely because of previous cutbacks in military requirements for fissionable materials."

Bus Driver Dies At Wheel

HILLMAN (AP)—The driver of an Alpena school bus slumped over the wheel and died — apparently of a heart attack — while driving pupils home Thursday. The bus ran into a ditch, police said, but none of the passengers was injured. Henry G. Thompson, 62, Rt. 2, Lachine, the driver, was pronounced dead at the scene. The mishap occurred on M-32 near here.

Motorcycle Gangs Are On Increase

DETROIT (AP) — The number of lawless motorcycle gangs in Michigan is increasing, along with an upsurge in crimes in which they are involved, Capt. Dan Myre, head of the State Police intelligence division, said Thursday.

He spoke to the annual convention of the Association of Michigan Police Chiefs. Myre said his office is keeping a close watch on such gangs in an attempt to stem the rising violence.

World's oldest tree is said to be the bristlecone pine.

Louvered Panels Serve Many Decorative Uses

By MR. FIX

Shutters, or louvered doors—call them what you will—are very much in right now. You can use them to dress up your house in a very decorative manner or in a very functional but attractive manner.

Almost every lumber yard carries unfinished louvered doors in a variety of sizes that you can easily trim to fit a particular situation. Even some department stores are stocking them in the same department in which they carry draperies and Venetian blinds and window shades.

Shutters go back hundreds of years but they are as eye-catching and functional now as they ever were. With a few louvered panels picked up at the lumber yard you can make shutters for your house quite easily.

But shutters for your windows is only one use for louvered panels. You can use them as doors for wardrobes and closets, as window blinds, as folding screens and as room dividers.

Make your front door look larger by placing a narrow full-length panel on each side. Fit them up with the proper hardware so that they are working shutters in your windows instead of being merely decorative. Place them on the inside of a window—several narrow panels hinged so that you can fold them open part way or all the way—and use them instead of conventional blinds. Use short panels and have separate sets for top and bot-

Louvered panels have many uses.

tom instead of one that is the full height of the window.

For a closet you can hang them on conventional hinges and turn them into ordinary doors. Or you can slide them on an overhead track and turn them into sliding doors or equip them with special hinges so that the suspended door also folds up requiring little space.

These louvered panels are excellent doors because they provide ventilation while keeping out dust. Three or more can be put together to make a folding screen. Use double-acting hinges for best results. With these, each panel can fold in either direction, allowing you to set up a screen in the most suitable shape.

Screens should be made of panels about six feet high. Use at least three hinges between panels. Fasten with screws after predrilling the holes.

Use ordinary butt hinges for panels you are mounting on windows and doors. So that the panels will fold instead of opening straight out, fasten narrow panels together with butt hinges.

For your kitchen get a pair about 24 inches high and make some cafe-type short doors. Mount them on special hinges so that they can swing either way. Some louvered panels are made just for this purpose and have scroll-cut designs top and bottom. Or make your own.

Louvered panels have wide

rails top and bottom. These can be trimmed for proper fit. Get louvered panels with a solid rail across the center if you plan to mount door pulls or other hardware.

Wire Guild OKs 3-Year Contract

NEW YORK (AP)—Striking members of the Wire Service Guild return today to work at The Associated Press after voting to accept a three-year contract offer.

The union had been on strike for eight days. Basic AP news and photo services had continued uninterrupted. The decision to return was announced Thursday night.

Guild officials did not give exact results of the balloting which was conducted for bureau throughout the country. End of the strike was announced before tabulating was completed, but unofficial sources said that with a majority of the tally in, the vote was running about two-to-one in favor of acceptance.

Germfask

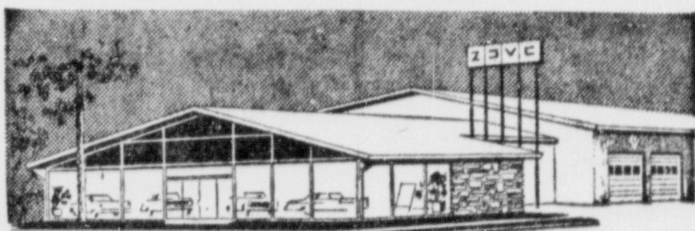

S. Sgt. and Mrs. Gary Musselman and children recently returned from Okinawa after a tour of duty there. They visited his grandmother, Mrs. Kathleen England and other relatives here, her father Edward Rollin at Blaney Park and his parents, Mr. and Mrs. Herbert Musselman at Manistique. His mother accompanied them as far as Rantoul, Ill., where she remained for a visit with another son, S. Sgt. Archie Musselman and family. Sgt. Gary Musselman and family continued to Phoenix, Ariz., where he will be stationed.

The women's group of the Reorganized Church of Jesus Christ of Latter Day Saints church met for a meeting Thursday evening at the home of Mrs. Fern Streeter.

Pat Smith who has been employed on the Great Lakes during the past shipping season has returned to his home here. Pfc. Tim Tovey returned to Fort Sam Houston, Tex. after spending a furlough here at the home of his parents, Mr. and Mrs. Leo Tovey.

The Varco-Pruden building revolution means beauty!

It can be beauty in design, beauty in the use of colored metal paneling, beauty in a blending of modern building materials, but it will also be functional, economical beauty in a metal building that serves your exact need. No one else offers you the flexibility and service you'll receive from your Varco-Pruden Builder. Call us for free quotations.

Father Groppi Joins Students

SPRINGFIELD, Ohio (AP)—Father James Groppi spoke less than one minute at a Wittenberg University student gathering where he was the featured speaker Wednesday night and left the platform, saying he would join striking students off the campus.

About 40 Negroes began boycotting classes Wednesday and moved to the Afro-American Institute for Studies at Antioch College at nearby Yellow Springs, Ohio.

Groppi told the 1,200 students assembled for his speech that he had read the demands of the Negro students, that he considered the demands legitimate, and that he was going to Yellow Springs.

With that, he left the platform.

The Negro students have demanded that Wittenberg officials launch a campaign to recruit more Negro students and more Negro faculty and staff members, among other things.

The university administration replied it would not use race as a yardstick for either the inclusion or exclusion of students or faculty.

Claims Disobedience Has Home As Source

VERSAILLES, Ky. (AP)—"Disobedience and the like starts in the home and it goes out into church life and civic life," says a 90-year-old retired Catholic priest.

"Today, you have more obedient parents than you have obedient children," the Rt. Rev. Msgr. Herbert F. Hillenmeyer said in an interview.

Msgr. Hillenmeyer, a priest for 66 years, has retired from a Fort Thomas, Ky., pastorate to become chaplain of a nursing home here, but his interest in the world's problems still is keen.

In rapid succession, he expounded his views on such controversial topics as the Pope's encyclical on birth control, civic disobedience and delinquency.

"The Holy Father's pronouncement was nothing new," Msgr. Hillenmeyer said, "just a reaffirmation of the general attitude of the church."

Rebellion
Priests' rebellion against the edict, like other problems facing the modern world, stem from a lack of obedience and a decreasing amount of charity in the world, Msgr. Hillenmeyer believes.

"There is still charity in the world. I don't say it is devoid of charity, but it's growing less and less and less," he said.

Msgr. Hillenmeyer said it is easier to understand "the laity, at least some of them," rejecting the Pope's stand against birth control, but he thinks it shocking that priests would rebel.

"Years ago, a priest rebelling against the authority of the bishop, why that was an unheard of thing..."

One Of 12, Traitor
"I look at it this way: whatever I have as a priest to administer the sacraments, I have from the church. The Church doesn't owe me anything, but I owe the Church a whole lot."

CAB Favorable To Rate Increase

WASHINGTON (AP)—The Civil Aeronautics Board is favorable to "a modest increase" in airline passenger fares, says the board's chairman, John H. Crocker Jr.

A seven per cent increase has been requested by Eastern, Trans-World, Braniff International, United and Northeast Airlines, Crocker said, and he said American Airlines indicated it might ask for a boost.

The board will meet with officials of the requesting lines Thursday, Crocker said at a news conference, and until then the board will not discuss "the nature and extent" of any increase.

The spirit of disobedience and rebellion on college campuses and in the streets also confounds Msgr. Hillenmeyer.

"I don't say in regard to young people that there aren't some points they're fighting for that aren't worth consideration, but their attitude of rebellion...is just beyond me," he said.

Then there is the increase in recent years of priests leaving the church, many of them because Catholic doctrine forbids the clergy to marry.

"You have to remember that

the Lord chose 12 apostles—he handpicked them...and even our blessed Lord had one traitor among his 12.

Teaching Was Easier

"These men who kick over their traces, why when they became priests they weren't dragged into it. They knew the responsibility and the condition," Msgr. Hillenmeyer said. All of these problems, he said, stem from early home life.

"You just ask the sisters who teach in the schools. They'll tell you how much easier it was to

teach children 25-30 years ago than today."

This lack of early training, he said, leads to breaking of laws. "I saw in the paper the other day where someone broke into a school and destroyed all kinds of things."

"Years ago, I don't say people didn't break in places, but when they did, at least there was a reason. They wanted to steal some money or something else."

"But to break into a school just to destroy it, well, I don't know what it's coming to."

Apple Going Dry For The Beatles

LONDON (AP)—John Lennon said in an interview published Monday that he and his fellow Beatles will be broke in six months if their organization—Apple—goes on losing money at the present rate.

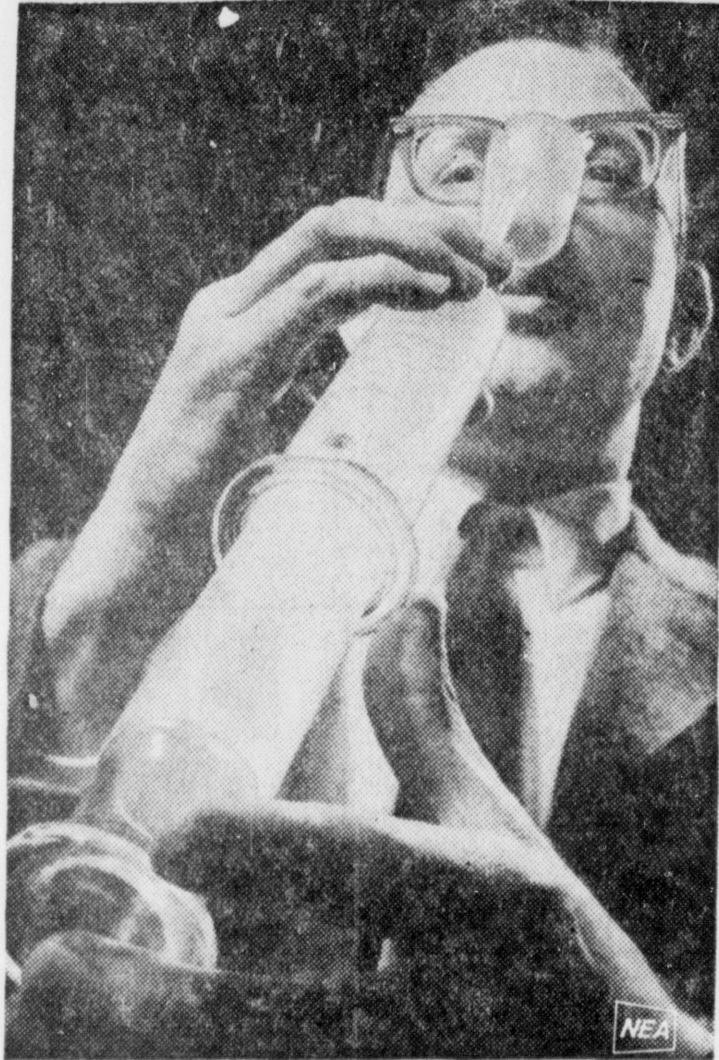

Lennon's statement immediately brought a denial that the company was in deep financial trouble but an admission that its management is undergoing change.

The interview with Lennon was published by a pop music weekly, Disc and Music Echo. In the 28-year-old Beatle was quoted as saying:

"We haven't got half the money people think we have. It's been pie-in-the-sky from the start. Apple's losing money every week because it needs close running by a big businessman."

Broke In 6 Months

"It doesn't need to make vast profits but if it carries on like

Bob Hope Special Is Funny, Sentimental

NEW YORK (AP) — That fine television institution, "The Bob Hope Christmas Special," arrived on NBC Thursday night — warm, moving, sentimental and funny as ever.

The star of the troupe of traveling entertainers, Hope, long ago evolved a fool-proof recipe for entertaining fighting men far from home and he wisely never changes the basic ingredients.

This year it consisted of 19 very pretty girls who could also sing, dance a bit and occasionally set up the straight lines for the comedians.

Hope's gags change from year to year and place to place, but as always some of the biggest laughs come from jokes about local weather and customs in remote places of the world.

Well Traveled

The show suggested the enormous amount of travel crowded into a few days—Japan, Thailand, Korea as well as Vietnam—and sometimes the performers looked a little tired when they were putting on their third three-hour show in a day.

For the television audience, it is a report about the fighting men to the folks back home, and for us, as always, the high moments were the shots of relaxed service men, many of them

Psychologist Predicts Famine Arrest Made Under Water

MIDLAND (AP)—A psychologist has predicted dire famine by the year 1975 if the present rate of population growth continues.

Dr. Hudson Hohland, a psychologist associated with the research leading to the development of the birth control pill, told an audience at the Northwood institute there are only two ways of controlling population: "One is to increase the death rate which nobody advocates, and the other is to decrease the birth rate, which is our only practical solution."

Hohland said he believes the government will be forced to impose tax penalties on large families in the future. He advocates placing chemical compounds in the water supply which would reduce fertility.

Hohland was the co-founder and president of the Worcester Foundation for Experimental Biology. He is currently an affiliate professor at Boston University.

"Apple has plenty of money—we all have," Harrison told newsmen. "When John said we were losing money he was talking about giving too much away to the wrong people. We have given too much to charity. We've just been too generous and that's going to stop."

Rumors circulated through London's pop music world that Harrison and Lennon had a fierce quarrel that broke up rehearsals for a Beatle television spectacular last weekend.

A colleague who did not wish to be named denied that the two stars came to blows and said it was "just a personal tiff." He added:

"Life among the beatles has never been completely peaceful, but they have always managed to patch up differences."

THE NOSE KNOWS. Since there is no known chemical method to gauge diesel odor intensity, engineers are endeavoring to eliminate diesel exhaust odor by studying it with the human nose. Here, Dr. Gerald J. Barnes of the General Motors Research Laboratory, demonstrates a new technique which allows natural "sniffing" of different controlled dilutions of air and exhaust gas.

Observers Believe U.S. Will Get To Moon First

CAPE KENNEDY, Fla. (AP) — By successfully linking two manned spaceships and transferring two crewmen, the Soviet Union has demonstrated it can assemble space stations for operations in earth orbit. But if they plan to beat Americans to a moon landing, the Russians will have to do much more.

Technical details of exactly how Russia plans to land cosmonauts on the lunar surface and return them to earth remain cloaked in secrecy. But knowledgeable western observers who specialize in assessing the Soviet space program generally believe cosmonauts don't have a chance of making it before 1970.

The United States, meanwhile, is expected to place its

ships returning to earth from the vicinity of the moon.

Soyuz craft can only reenter at earth orbital speeds of 17,500 miles an hour, the Soviets indicated.

If so, this means a flight to the moon using Soyuz would require firing from the lunar surface into earth orbit first, then reentering the atmosphere—an extremely difficult sequence which Russia has not yet proven it can accomplish.

Soviet officials have left no doubt in statements that the Soyuz series is aimed at construction of manned orbiting platforms. If Soyuz 1 succeeded in 1967 instead of ending in the death of a cosmonaut, they would have long since constructed and operated one.

Trail Leafs By One Point

Surging Red Wings Win 6th Straight, Near Top

DETROIT (AP) — The Detroit Red Wings are still second from last in the National Hockey League's six-team eastern division, but:

—After edging Pittsburgh, 3-2, Thursday night, the Red Wings now have a six-game winning streak, the longest in the NHL this season.

—The Red Wings, with 48 points, can move to third place if they beat Toronto and Montreal defeats Chicago in NHL action Saturday. Toronto and Chicago are currently tied for third with 49 points.

Goals by Alex Delvecchio, Gordie Howe and Pete Sternkowski powered the Red Wings past Pittsburgh in a game at Olympia Stadium Thursday night.

Goalie III

It was Detroit goalie Roy Edwards' 10th victory in 11 starts, but coach Bill Gadsby expressed some worry about his health.

"He's had a chest cold for two days," Gadsby said, "and with the pneumonia scare he had last summer, we've got to be careful."

"But he's got such a hot hand I hate to take him out of there. And there's no doubt about it, we play our big one Saturday night," he said.

The game will be at Toronto. Delvecchio opened up the Red Wings scoring at 1:35 of the

first period Thursday night when he blocked a pass made by Penguin Dunc McCallum near the Pittsburgh goal.

Delvecchio cut across the middle, fending off Pittsburgh's

Dallas Suburb To Build New Football Stadium

IRVING, Tex. (AP) — Voters in this Dallas suburb voted 5,366 to 2,439 Thursday to allow the city of Irving to issue revenue bonds to build a new home for the Dallas Cowboys of the National Football League.

This was the second vote for Irving. Last year voters also approved the selling of bonds for the stadium but the sale was halted after a resident, Howard Curren, filed suit against the city.

Curren agreed to drop his suit in return for the new vote.

The election Thursday spelled out specific financial details for building the stadium.

The 65,000 seat stadium will be the new home for the Cowboys who now play in the Cotton Bowl in Dallas. The stadium will cost about \$20 million, club officials said and will feature a sliding roof so the seating area may be covered in bad weather.

Lee Boivin, who managed to grab an arm. With the other, Delvecchio one-handed the puck into the far side of the net past goalie Les Binkley.

Howe Nets 20th

Paul Andrea tied the score at 12:31 of the first with a power play goal. At 15:30, Howe took a pass from Delvecchio and sailed in a goal, his 20th of the season. And it was his 20th straight year to achieve the 20 mark, comparable to a .300 hitter in baseball.

Fonteyne evened the score at 2:34 of the second period when he backhanded in a score. Exactly ten seconds later, Sternkowski gave Detroit the victory setup by teammate Danny Lawson.

Pittsburgh had 29 shots on goal and Detroit had 39. A total of 10,633 persons attended the game.

Penalty Backfires

The Los Angeles Kings had too many men on the ice in the second period of Thursday

night's National Hockey League game with Chicago, but the Black Hawks were the ones who suffered.

The penalty against the Kings, served by Howie Menard, backfired when LA's Lowell MacDonald scored 25 seconds later to tie the score at 1-1. And it was a third-period goal by Menard that proved to be the winner in the Kings' 3-2 victory.

In other action, Boston trounced Minnesota 5-1, and Montreal blanked Philadelphia 4-0.

Ken Wharram's first-period goal had given the Hawks a 1-0 lead, but MacDonald knotted it at 14:16 of the second and Howie Hughes put the Kings ahead at 16:09 just 18 seconds after Menard came out of the penalty box.

Fire 39 Shots

Menard then clinched it by scoring from in close with 11 minutes left, offsetting a late goal by Chicago's Dennis Hull. The Kings poured 39 shots at Chicago goalie Denis DeJordy while the Hawks managed 19 at Gerry Desjardins.

Ken Hodge fired his 19th and 20th goals and Phil Esposito got his 27th in leading the torrid Bruins past hapless Minnesota. Ed Westfall and Johnny Bucyk also scored for the Bruins, beaten only once in their last 16 games, while Ray Cullen, recovered from a broken ankle, got the Minnesota goal.

The North Stars, outshot 17-1 in the first period and 40-14 for the game, have lost seven straight and are winless in 13 games.

Montreal remained two points behind Boston in the East Division as Bobby Rousseau scored two goals and an assist and goalie Rogatien Vachon kicked out 25 Philadelphia shots. Yvan Cournoyer and John Ferguson also scored for the Canadiens, who shut out the Flyers for the third time this season, each time with a different goalie.

Golfers Assault Kaiser Open Par Lunn Takes Lead

NAPA, Calif. (AP) — The second day of action in the \$135,000 Kaiser International Open Golf Tournament was launched at Silverado Country Club today with expectations that the \$27,000 first prize was still very much up for grabs. And many were trying to grab it.

Out of 156 golfers in the first rounds of action Thursday, no less than 64 scored under par and 82 of the total field had par or better.

Leading going into today's action with a 65, seven under par was 23-year-old Bob Lunn of Sacramento, Calif., who seemed could do no wrong Thursday. He attributed his good showing to his work on the greens, but then he really didn't have much problem otherwise. Playing on the North course, he had 34 for the first nine and 31 the second.

Jacky Cupit was close on his heels with a 66, with U.S. open champion Lee Trevino, Miller Barber and Dave Hill ending the first day of play with 68.

Gordie Howe Scores 20th Goal

Oakland's John Rauch Accepts Buffalo Post

OAKLAND (AP) — Coach John Rauch and the Oakland Raiders announced late Thursday night that he has accepted the head coaching position with the Buffalo Bills. Both teams are in the American Football League.

Rauch is going from a team which he coached into the Super Bowl a year ago and to the

AFL's Western Division championship in 1968 to the AFL's longest 1968 member.

At Buffalo, he can expect to have O.J. Simpson, Southern California's Heisman Trophy winning, yard-eating back. Buffalo has the No. 1 draft draw.

Rauch was coach of the year 1967 with the Raiders and his quarterback Daryle Lamonica was AFL Player of the Year.

With Simpson in the backfield, he can expect to be coach of the Year 1969, predicts the Raiders general managing director, Al Davis, former AFL commissioner.

Statement Read

Rauch, 41, has been with the Raiders six years, three as assistant and three as head coach. The announcement of his switch to Buffalo was made by

telephone to some sports writers who were given his home telephone number.

But assistant coach Louis Engleberg, who will go to Buffalo with Rauch, read a statement in which Rauch said, "I have resigned as head coach of the Oakland Raiders to pursue another opportunity in professional football."

He thanked Davis and his players for "whatever success the Raiders have had under my tenure."

His final sentence said, "I have accepted a similar position with the Buffalo Bills."

The Raiders notified only a few sports writers, gave them the phone number to call late at night, and made positive the news would not leak out until too late for morning newspapers.

The Buffalo Courier-Express, however, published the story in its Friday morning edition, quoting what the paper called authoritative sources.

Best AFL Record

In three years at Oakland, he compiled a 34-8-1 record, the best in the AFL. He took over the Raiders when Davis became AFL commissioner. There have been rumors that Davis has been second-guessing Rauch since his return to Oakland as managing general partner.

Rauch's background, both as a player and a coach, is with the offense, one of the Bills' glaring needs.

Rauch was an outstanding quarterback at Georgia and had a playing career in college and professional football that ran from 1945 until 1951 when he was with the Philadelphia Eagles.

He coached at the University of Florida, Tulane, Georgia and West Point before joining the Raiders.

Lou Hudson Has A Day, Wins In And On Court

By The Associated Press
Thursday was Lou Hudson's day in and on the court.

First, a federal judge in Greensboro, N.C., denied an injunction sought by the Miami Floridians of the American Basketball Association to prevent Hudson from playing with the National Basketball Association's Atlanta Hawks.

Then, the 6-foot-5 Hudson went out on the Carolina Coliseum court in Columbia, S.C., and scored 23 points as the Hawks beat the Phoenix Suns 112-107.

Elsewhere, San Francisco walloped Chicago 112-99, and Cincinnati turned back San Diego 120-109.

In the ABA, Oakland nipped

Miami 131-129, New Orleans bombed Denver 136-106, Houston outlasted Minnesota 128-121 in double overtime and Indiana edged New York 96-94.

Hudson "Relieved"

"I'm relieved," Hudson said after hearing the federal court ruling. "I've been playing with the same guys for three years and adjusting to them on and off the court. If the decision had gone the other way, I would have had to make the adjustment all over again."

Hudson had signed contracts in 1967 with both the Hawks and the Minnesota Muskies, forerunners of the Floridians. The court said the Muskies "knowing that Hudson was under a moral, if not a legal obligation to furnish his services" to the Hawks, "induced him to repudiate his obligation."

Zelmo Beaty led the Atlanta scorching with 28 points as the Hawks climbed to within two games of first-place Los Angeles in the NBA's Western Division.

Jeff Mullins scored 15 of his 29 points in the third period as San Francisco overpowered Chicago. The victory enabled the Warriors to break a fourth-place tie with San Diego and pull within a half-game of Chicago in the West.

Break Streak

Nate Thurmond chipped in with 24 points while Bob Boozer paced the Bulls with 23.

Cincinnati broke a four-game losing streak, longest of the season, as Tom Van Arsdale scored nine consecutive points to open the fourth quarter and give the Royals a 101-95 lead. Jerry Lucas, Oscar Robertson and Van Arsdale sparked the Royals

Northrup Says Player Strike Would Hurt Tigers' Chances

DETROIT (AP) — Outfielder Jim Northrup said Thursday that a possible players strike would diminish the Detroit Tigers' chances of winning the American League pennant this year.

"What I'm really afraid of," said Northrup, "is that a players strike will hurt the Tigers' chances to repeat as American League champions this year."

"Say even four or five key players hold out with the Players Association. What if Mickey

Lolich, Al Kaline, Bill Freehan and myself, for instance, don't go to spring training. That could foul things up pretty good, right?" he said.

Lolich, Freehan and Willie Horton say they won't go to Florida until the pension dispute is settled. The Major League Players Association agreed to a boycott early this winter to back up demands that club owners contribute more money to its pension fund.

Only three Detroit players

have signed 1969 contracts. They are Mickey Stanley, Denny McLain and Dick McAuliffe. McLain, however, says he won't honor his contract until the players association dispute is settled.

"I hope this strike doesn't happen," said Manager Mayo Smith. "If you have to get in shape in half the time in Florida, you're prone to injuries."

The Tigers are scheduled to begin spring training at Lakeland on Feb. 22.

Outfielder Al Kaline and pitcher Joe Spalla said they would go to Florida in early February. But they added they wouldn't check-in at Lakeland.

Outfielder Willie Horton, who appears unusually trim, said, "I'm staying in shape. Who knows when I'll get to Florida? I may just show up at the stadium on opening day if this thing isn't settled before then."

Northrup predicted that negotiations between the association and club owners would be difficult.

"The pro football players struck last fall," he added. "And the owners said they'd play rookies if the veterans didn't show up. Can you imagine the TV networks showing some Triple A teams if they couldn't get major league baseball?"

"Our owners better think again," he said.

Foyt Captures Pole Position
RIVERSIDE, Calif. (AP) — Driver A. J. Foyt, no stranger to the pole position in an auto race, had just that position today for the Motor Trend 500-mile stock car run Sunday at the Riverside International Raceway.

Qualifying was to be concluded today but Foyt and nine others had their starting berths locked up after Thursday's initial runs. Second was Lee Roy Yarborough, Columbia, S.C., 109.979 in a Mercury Cyclone.

Buckeyes Battle U-M Home Floor

CHICAGO (AP)—Ohio State's 13th-ranked Buckeyes will go against the home floor bugaboo Saturday afternoon when they try to expand their Big Ten basketball lead at Michigan.

OSU is 2-0 in the title chase with a road victory at Indiana and a home decision over Wisconsin. Michigan is 2-1, having defeated Iowa and Indiana in overtime battles before being knocked off at Minnesota.

So far in the conference race, home teams have won 11 of 15 games. All three home clubs won Tuesday, Iowa over MSU, Indiana over Northwestern and Wisconsin over Minnesota.

In other games on Saturday's curtailed slate, Minnesota (1-2) is at Iowa (2-1) in a television attraction and Michigan State (1-2) is at Northwestern (1-2) at night.

Purdue, sharing the lead at 2-0 with the Buckeyes, hasn't played since spoiling Illinois' perfect record 98-84 Jan. 7. The Boilers return to action Jan. 25 at Minnesota. Also idle for final exams are Illinois, Indiana, and Wisconsin.

OSU is the Big Ten's hottest shooting team, according to conference statistics, with a 528 field goal percentage. Northwestern is tops from the foul line with .787.

Other team leaders include Purdue with a 92 point offensive average; Minnesota, 71.7 defensive yield; and Iowa, 53.3 per cent rebound recovery.

Leading the scoring race is

defending champion Rick Mount of Purdue with a 35.0 average. He is followed by Rudy Tomjanovich, Michigan, 30.7; Joe Cooke, Indiana, 22.5; Dave Sorenson, OSU, 22.5; Chad Calabaria, Iowa, 22.3; James Johnson, Wisconsin, 20.0; Dave Scholz, Illinois, 19.7; Ben McGilmer, Iowa, 19.3; Ken Johnson, Indiana, 18.8, and Al Nuss, Minnesota, 18.7.

Abrams, Bunker Talk With Thieu On U.S. Pull Out

SAIGON (AP) — U. S. Ambassador Ellsworth Bunker and Gen. Creighton W. Abrams, the U. S. military commander in Vietnam, conferred today with President Nguyen Van Thieu on U. S. troop withdrawals and a possible cease-fire in light of the break in the peace talks deadlock.

The meeting took place less than 24 hours after an announcement from Paris that the United States, North Vietnam, South Vietnam and the Viet Cong's National Liberation Front will begin four-way talks Saturday.

Earlier, the U. S. Air Force disclosed it is reviewing its contingency plans for a troop withdrawal or a cease-fire.

One source said the meeting was "pretty high level stuff," also attended by Vice President Nguyen Cao Ky and Foreign Minister Tran Chanh Thanh. The informant said the leaders discussed "a whole spectrum of things" for nearly two hours.

Topics included: —Withdrawal of American troops, how many and how soon. —A truce, which could mean a total cease-fire, a partial cease-fire or a "cease-fire in place." The latter means all troops would simply stay where they are, without mounting any new operations or continuing any old ones.

—How to retaliate if the enemy should attack Saigon during the new negotiations. "In other words," said the source, "would this mean an automatic resumption of bombing North Vietnam?"

—The demilitarized zone. Ky, supervisor of South Vietnam's Paris delegation, is scheduled to return to Europe early next week.

U. Alexis Johnson, undersecretary of state for political affairs in the incoming Nixon administration, canceled a scheduled meeting with Thieu later today. A spokesman for the U. S. Mission said he had a bad case of flu.

Johnson has been conferring with top American and South Vietnamese officials since Wednesday. He is scheduled to leave for Washington Saturday to report his findings to President-elect Nixon, but the spokesman said his departure may be delayed by his illness.

While Abrams is against withdrawing any combat units from Vietnam before mid-July, sources said he has reluctantly accepted the fact that some troop withdrawals will be made relatively soon.

Informants close to Thieu said the initial withdrawal announcement could specify from 20,000 to 50,000 men without a timetable.

On Thursday, Premier Tran Van Huong was quoted by a spokesman as saying he believes the United States could begin a withdrawal of 10,000 men a month without compromising the war effort.

Small skirmishes and overnight shellings of South Vietnamese towns and bases continued, but there was no significant ground fighting.

U. S. headquarters reported the 51st significant incident of enemy activity in the demilitarized zone since the Nov. 1 bombing halt of North Vietnam. A communiqué said North Vietnamese troops hidden in bunkers fired on a light observation plane Thursday over the southern half of the six-mile wide zone. American artillery retaliated, smashing three bunkers.

On the Batangan Peninsula, an 8,200-man allied task force tightened its cordon on North Vietnamese regulars and Viet Cong believed holed up in the area 340 miles northeast of Saigon. Now five days old the operation still has not encountered any major resistance.

Military spokesmen also reported that enemy mines sank one U. S. Navy boat and heavily damaged another on the Cua Viet River just below the eastern flank of the DMZ Thursday.

Negro Shopping Center Opens

DETROIT (AP)—More than 1,000 shoppers jammed the aisles of the Negro-owned Big A supermarket in Detroit Thursday as it celebrated its opening.

"It's something big for our people," said Jesse McGuire, a barber. "If we patronize our own in business we don't have to worry when someone won't serve us."

"It don't mean to be bitter," he added. "Just realistic."

Rev. Roy A. Allen, president of the Detroit Council of Organizations, and the Rev. M. B. Terrell, pastor of the Tride Stone Baptist Church, organized the ownership group.

With a \$200,000 loan from the Small Business Administration, they leased the building from Allied Supermarket.

Word of the Negro-owned supermarket was spread by nearly two score Negro religious leaders.

"I heard about it in my church," said Mrs. Winnie Terry. "I've waited a long time for this day. By owning things we as a people are treated as equals."

Prexy's Death Restores Peace

By The Associated Press
The death of its president brought peace to racially troubled Swarthmore College today and officials of the University of Minnesota restored order in an administration building damaged by students in a 24-hour sit-in.

Still in turmoil, however, were San Francisco State College, where bombs came into play, and Brandeis University, where the campus communications center remained in the hands of 65 Negroes for the 10th day.

Dr. Courtney Craig Smith, 52, died of a heart attack in his office at Swarthmore Thursday, a day after naming a faculty committee to deal with Negro student demands for special racial privileges.

A smoke bomb forced the evacuation of two campus buildings and police detained a coed for questioning.

At Brandeis, 24 students who disrupted a classroom in a demonstration of support for the Negro rebels in control of the communications building signed a letter of apology.

The Negroes refused to budge from the communications center but the university restored campus communications by having telephone controls installed in another building.

Soil Conservationists Attend Dinner Meeting

About 95 people attended the third annual Schoolcraft County Soil Conservation District dinner meeting Wednesday night at the Fireside.

The Schoolcraft County landowners heard reports from Erwin Simi, SGS district conservationist; Carl Aldrich, manager of the Larko Chemical Co.; Martin Miller, Thompson Fish Hatchery manager; and Del Meister, area conservationist of Marquette, following the 6:30 dinner.

According to an estimate by the local chamber of commerce, the combined coho boom and pipeline involvement in the

area created a 10 per cent boost in the area's economy in 1968, Miller said.

Ranks Third
"This increase amounted to approximately \$600,000 during the peak three month period of July, August and September," he said, based on a \$6 million figure.

Discussing the "coho story," Miller said that it was the third - ranked news interest story in Michigan and eighth in the nation.

About 25,000 coho were planted last year, Miller said, and by next spring an additional planting of 50,000 Alaskan strain salmon will be completed. The Alaskan strain is a special breed, unlike the Washington - Oregon strain of coho planted last year, and is acclimated to fresh water.

Opportunities

Aldrich told the group that Larko Chemical Co. is still in the testing stage and hoped to be able to utilize locally-grown oil yielding crops. Mentioned specifically were crabs, planted and harvested much the same as oats, flaxseed and alfalfa.

Aldrich said that Larko will

be equipped to process about 10,000 tons per year of farm crops.

Meister discussed the agricultural opportunities available in the Upper Peninsula and Simi reported on District activities during 1968. Rep. Charles H. Varnum spoke briefly on resource conservation legislation.

William Pawley of Gulliver was re-elected to a three-year term as director of the District. Other directors include Jon Handl of Cooks, who also serves as chairman; Charles Matchinski, Hiawatha; Robert Leny, Gulliver; Pete Widdis, Thunder Lake.

Handl served as master of ceremonies and the invocation was given by Truman Zook.

Hospital

Admitted to Schoolcraft Memorial Hospital were Fred Cota, Elizabeth Losey, Diane Chandler, Bernard Paslick, Verna Rochefort, Maneta Heck, Clifford Bruce, Glenn LaDue and Cheryl Fisher.

Discharged were Julia Bessler, David Sundling, William McDermott and Ernest Edwards.

Select Local GOP Delegates

Mr. and Mrs. Richard Manning and Mrs. Charles Varnum were chosen delegates to the State Republican Convention in Grand Rapids in February. Alternates include Mrs. George Rojem and William Miller, both of Germfask and Dr. James H. Fyvie. The convention is scheduled for Feb. 14 and 15.

Both delegates and alternates were elected during Wednesday night's county spring convention. A Lincoln Day dinner is being planned for sometime in February with Gov. William Milliken as keynote speaker. Further details will be announced later.

Attend Funeral In Rhinelander

Mr. and Mrs. Harvey McLaughlin 227 S. Maple Ave., are in Rhinelander, Wis. where they will attend funeral services for Mrs. McLaughlin's father, Joseph E. Bodwin on Saturday.

Mrs. McLaughlin's father, who was 83 years of age, died Wednesday after a week's illness.

Funeral services will be held from St. Mary's Church in Rhinelander at 9 a. m. Saturday.

Darlene LaVance Marriage Told

Mr. and Mrs. Edward LaVance, 738 Arbutus Ave., are announcing the marriage of their daughter Darlene to Staff Sgt. Jesse E. Abel.

The marriage took place Thursday, Jan. 16 in Big Springs, Tex. where the bridegroom has been assigned to school for a month.

The couple will make their home in Alamogordo, New Mexico where Staff Sgt. Abel is stationed at Holloman AFB.

Briefly Told

The City Recreation ski tow has been repaired and operation of the tow will resume at 1 p. m. this Saturday.

Anyone having a background in electronics and or ham radio, and willing to share their skill with junior high students, is asked to contact the Community School office. Several junior high students are interested in forming a Radio Club and need adult leadership.

State Police report that a fire early Wednesday evening completely destroyed a cabin on Little Stevens Lake, off Federal Highway 13 in Delta County. The cabin was owned by Walter Eagle of Brampton. The fire was discovered by Mrs. George Alexander of Gladstone between 6 and 6:30 p. m. The cabin had been vacant for several hours before the fire was discovered. State Police said that cause of the blaze is unknown. No estimate of loss has been made.

Church Events

ZION LUTHERAN CHURCH
The annual meeting of Bethany Evangelical Lutheran Church of Isabella, will be held on Sunday, Jan. 19, at 3 p. m. The Luther League will meet on Monday, Jan. 21 at 7 p. m. Zion Evangelical Lutheran Church will hold its annual meeting on Sunday, Jan. 26, at 7:30 p. m. at Augustana Hall.

Five Catholic Nuns Teach Sunday School

CINCINNATI, Ohio (AP) — Even in the present flurry of interfaith activities, what might have been an ecumenical "first" has occurred here.

A Protestant church, needing personnel to staff a Sunday school, sought the aid of Roman Catholic nuns. Five from a parish school responded and taught a 10-week course for primary youngsters.

It happened this way: Rev. Christopher F. Neely, rector of St. James Episcopal church in Cincinnati, started what he termed a renewal program so the "whole parish could devote itself to recommitment to Christ." This meant his regular Sunday school teachers would be attending special services during weekly church school periods.

The Rev. Mr. Neely checked with two large Protestant churches but found they had staffing problems of their own. Then, with permission of his

congregation, he went to the parish school of St. Martin Catholic church in suburban Cheviot and asked for help. Five elementary teachers, members of the Notre Dame Sisters of Covington, Ky., who staff that school, responded with approval from their church and convent superiors.

Then the experiment started, with a recruit from the Episcopal congregation sitting in with each sister to share in the responsibilities of the Sunday school education. "The nuns and I were a bit apprehensive at first," said the Rev. Mr. Neely, "but the parishioners' response to Roman Catholic participation was reassuring from the beginning. Parents reported favorably on the apparent increase in their children's interest and attendance records were equal to the previous year."

Rewarding

As far as can be judged, he said, the program was acceptable to the congregation as a whole. "The nuns were willing to use our own Episcopal church teaching material, adding their own ideas as they went along," he added.

"We met periodically to discuss doctrine," he said. "to keep the church's education in line with that of the Episcopal Church."

When the 10-week program was concluded, a brief Advent service was held the last Sunday at which each sister was presented a Jerusalem Bible in gratitude for their service.

Some of the sisters said they found the experience rewarding. "It was an opportunity to serve and to make new church friends," said their superior, Sister Mary Evelyn.

Register Next Week For Community School

The winter term in the community Education Program of the Manistique Are Schools will begin on Monday, Jan. 27, Community School Director Richard Bonifas has announced.

Registration will be held Jan. 20 to 24 from 1 p. m. to 5 p. m. and during the evening hours of 7 and 9 p. m. in the Community School office, Central Building.

Classes in pre - high school, high school credit, general education, adult enrichment and vocational will be offered.

Sheriff Wears Nixon's Tuxedo

CHICAGO (AP) — Richard M. Nixon will be represented by two tuxedos at his inaugural ball in Washington Monday—the one he wears himself and the one on Sheriff Joseph I. Woods of Cook County.

Woods, brother of the President-elect's personal secretary, Rose Mary Woods, has boasted for years that he wears Nixon's hand-me-downs. He inherited Nixon's inaugural ball tuxedo in 1966. It's a 42 regular.

There are 975,000 non-profit organizations in the United States, ranging from the Red Cross to the community church.

High school credit courses will continue for a second semester in most subject areas. Bonifas said, with additional credit courses offered in geometry, beginning typewriting, welding, English 11, and American documentary history.

Pre - high school courses in reading speaking, arithmetic are being offered for adults who have not completed the eighth

grade. Applications and registrations will be accepted at anytime. These courses are offered without cost and students may enter at any time.

Of special interest are courses in basic seamanship, offered in conjunction with the Coast Guard Auxiliary; the Great Decisions program in foreign affairs; and journalism, offered as high school enrichment.

Medical Board Hears Case Against Doctor

DETROIT (AP) — A state medical board hopes to decide within a week whether to revoke the license of Farmington Township physician Ronald E. Clark, who is serving a 3 to 15 year prison term in the "truth serum" death of a woman of office assistant.

Clark was brought under guard from Southern Michigan Prison at Jackson Thursday for a six-hour hearing before the state board of registration in medicine.

Dr. Irving Kurtz, board chair-

man, said the 10 board members would study the testimony privately before reaching their verdicts.

At the hearing, Clark was charged with acting improperly in treating Mrs. Grace Neil, 43, of Livonia, with the truth drug, sodium pentathol.

He was convicted in district court of manslaughter in her death, Nov. 3, 1967, from an overdose of the drug.

Kurtz said present medical laws prevented removing Clark's license on his conviction because he is appealing the case.

Lawyer James Wells, who represented Clark, said the physician used sodium pentathol to "bring an inexpensive form of psychiatric care to his patients."

Two medical experts testified that sodium pentathol had no therapeutic. The drug is used at times with other forms of psychiatric treatment.

The Oakland County prosecutor's office also is studying Clark's involvement in the death of another parttime employee and patient, Mrs. Hannah Bowbank, 66. An autopsy showed recently that there was amount of sodium pentathol in her brain.

Clark's license was revoked by the state medical board two times, but it was returned to him in both instances.

President Says His Good-Byes

WASHINGTON (AP) — "It's been a little sad for me the last few days," says President Johnson, whose final hours in the White House are turning into one long farewell.

But as the President makes the rounds of goodbye receptions, for him and for trusted associates, he insists that he has no regrets about leaving office.

"I've never questioned my judgment in not wanting to run again," Johnson said Thursday night at a reception given by the Senate, where he served 13 of his 38 years in Washington.

The President's wife, their two daughters and their grandson accompanied him to the Capitol. Johnson told the senators that he had treated him fairly, "as well as I deserved and better. I'm mighty grateful to every one of you."

The sadness of parting with old friends, and old antagonists, was softened by Johnson, joking and poking fun at himself.

Harking back to his campaign to cut White House costs by ordering the lights turned out, Johnson reminded the senators that he was taking a big cut in pay next week. "If you think you have a problem cutting out lights, you just better not look at the LBJ ranch after sundown," he quipped.

Bark River

Myrna Kay Norman, daughter of Mr. and Mrs. Philip Norman of Bark River, graduated on Dec. 20 from the McConnell Air Lines School in Minneapolis, Minn. She received training as a stewardess, reservationist and ticket agent. She was accepted by Delta Airlines, Detroit and began employment there Jan. 13 as a reservationist. She will reside in Redford, a suburb of Detroit. Miss Norman is a 1966 graduate of Bark River-Harris High School and attended Bay de Noc Community College for two years.

Greek fire was an incendiary composition, used by the Byzantine Greeks, which would burn on and under water.

Scientists Make Life's Chemical

NEW YORK (AP) — Two teams of scientists, working separately and succeeding at about the same time, have created in a test tube a master chemical of life.

The feat was the artificial creation of an enzyme—ribonuclease—that controls the biochemistry of all living things.

Nothing—not man, bird, not the smallest flower nor any cell—can live or breathe or grow without enzymes.

Eventually, the accomplishment will lead to applications in medicine, scientists said Thursday in reporting the work.

One enzyme, L-asparaginase, has shown promise in treating some cases of leukemia in children and another, dextranase, is said to help removing the bacterial plaque on teeth that leads to cavities.

The work was reported by Drs. Robert Bruce Merrifield and Bernd Gutte of Rockefeller University, and Drs. Robert G.

Denkewalter and Ralph F. Hirschmann of Merck Sharp & Dohme Research Laboratories of Rahway, N.J.

The two groups succeeded just about simultaneously, but used entirely different methods. Ribonuclease, like all enzymes, is a protein, made up of the building blocks called amino acids. There are 20 amino acids in ribonuclease, put together in a specific, orderly, chain of a certain three-dimensional form.

Cohen Becomes Dean At U-M

ANN ARBOR (AP) —Wilbur J. Cohen, outgoing U.S. secretary of health, education and welfare, will become the new dean of the University of Michigan School of Education, university officials said Thursday.

The appointment was expected to be confirmed today by the U-M board of regents.

Cohen, 55, has been a member of the school's faculty since 1956. He has been on leave since 1961 when he became assistant secretary of health, education and welfare.

In 1967, he was named by President Johnson to replace John Gardner as head of the department.

Cohen has been active in government since the early 1930s. He was one of the drafters of the original Social Security Act, passed in 1935. Since, he has participated in a number of federal social security commissions.

Prior to joining HEW, he was a professor of social work administration in the U-M School of Social Work. He is the author of several books in the field.

Airlift Troops For Maneuvers

HEIDELBERG, Germany (AP) — Giant Starlifter jets will land 5,000 combat-equipped U.S. troops in West Germany next week for maneuvers near the border of occupied Czechoslovakia. East bloc nations have dubbed the airlift "highly provocative."

U.S. officials say the military maneuver, called Reforger 1, has no connection with the Soviet-led invasion of Czechoslovakia last August. But it is the first massive U.S. demonstration of combined air and ground power in Europe since 1963 and the date of the exercise was moved up from later this year.

Six years ago propeller planes lifted the 15,000-man 2nd Armored Division from Texas to Europe in little over 63 hours. Reforger 1 is not aimed at speed however, but on precision.

The exercise involves 12,000 Army troops, most of them from the 24th Infantry Division, and 3,500 Air Force personnel. Most of the main body of troops will be flown to Nuernberg from Forbes Air Force Base, Kan., arriving Monday and Tuesday.

Germfask

Births
Mr. and Mrs. Glen Metcalf are parents of a daughter, Debra Jean, born on Jan. 7 and weighing 7 pounds, 8 1/2 ounces. Mrs. Metcalf is the former Linda Downey. Grandparents are Mr. and Mrs. Robert Metcalf of Rte. 1, Germfask and Mrs. Arbutus Downey of Newberry.

A daughter, Lesa Marie, was born to former residents, Mr. and Mrs. Billy Burns of Mattawan, Mich. Mrs. Burns is the former Lila Bowler and grandparents are Mr. and Mrs. Walter Burns of Newberry and Frank Bowler of Lakefield.

Mrs. Violet Curran has returned to her home here after spending the holidays visiting her daughters and families, Mr. and Mrs. Anthony Giusfrida of Alexandria, Va. and Mr. and Mrs. Paul Cardilicchio of Baltimore, Md.

Birthday Party
Mr. and Mrs. Clyde Harkness and girls of McMillan, Mrs. Lesa Freytag of Escanaba and Mr. and Mrs. Walter Burns of Newberry were present at a family birthday party in honor of Carole Burns held at the home of her parents, Mr. and Mrs. Kerry Burns, Sunday.

Gordon Gill sustained head injuries in an accident near Blaney Park, Thursday. He was taken to Schoolcraft Memorial Hospital at Manistique and then to St. Luke's Hospital at Marquette, where he underwent surgery and is a patient there.

500 Club
The 500 Club held their first game of the season Friday afternoon at the home of Mrs. Violet Curran.

Harold Gilman was injured in a fall at his home Friday afternoon and is a patient at Schoolcraft Memorial Hospital at Manistique.

Santo Domingo, on the island of Haiti, is the oldest European settlement in the New World.

British Labor Party To Act On Wildcat Strikes

(Continued From Page One)

such channels to thresh out disputes. It proposed a 28-day cooling-off period—called a "conciliation pause"—to force unions and employers to the conference table. The government, in the meantime would issue a back to work order. It also could include an order to management to withdraw a disputed work practice until it was discussed. If either side refused, it could be fined by a special industrial board. Union funds could be attached to collect the money.

Only Once
But the white paper added that the 28-day period could be applied only once. It said that if strikes "take place after the exhaustion of an agreed dispute procedure, society can have no complaint."

The government also proposed setting up a commission on industrial relations to investigate union organization and jurisdictional disputes. If the government could order the commission's recommendations into effect. Unions or managements which refused to comply could be fined.

The government rejected a proposal to make strike ballots mandatory, especially after studying the system in the United States.

"If union leaders were always obliged to hold a strike ballot when using the strike threat in negotiations, they might well find their hands tied by a vote to strike in support of a claim intended merely as a bargaining move," the white paper said.

It proposed giving the government power to order a strike ballot in a serious national dispute where there is doubt that a strike commands rank and file support.

The white paper declared "radical changes are needed in our system of industrial relations" and said that one needed reform is reorganization of the nation's union structure, under which as many as a dozen unions can represent workers in a single plant.

The proposed commission could grant or loan money to unions to help them merge and consolidate, for easier dealing with management.

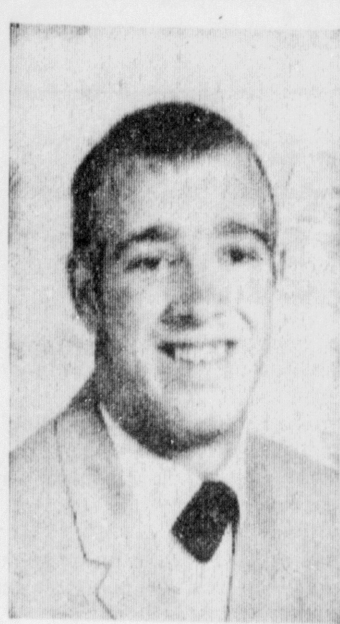

Flat Rock PTC Meeting Held

The regular meeting of the Flat Rock Parent-Teacher Club was held in the multi-purpose room of the school on Tuesday evening with Frank Paquin presiding.

Mrs. Robert Jensen, program chairman, introduced the speaker, C. Mahon of the Community Mental Health Center. It was announced that the topical fluoride program will be held again this year.

A games party is scheduled at the next meeting on Feb. 11. Chairman is Mrs. Art LaFave. Mr. Harrison's seventh grade class won the room count.

Refreshments were served by the third grade mothers with Mrs. Art LaFave, Mrs. Ed Gascon and Mrs. Walter Solis in charge.

GARY M. AHLIN, the son of Mr. and Mrs. Carl Ahlin of Bark River, 1, will receive the degree of Bachelor of Science in Education from Peru State College, Peru, Neb., at the College's 100th annual commencement to be held May 25. He is a graduate of Bark River-Harris High School.

Wirtz Favors \$2 Minimum Wage

WASHINGTON (AP) — W. Willard Wirtz, outgoing secretary of labor, says the federal minimum wage requirement should be increased from \$1.60 an hour to \$2, and, "Nobody who works should be left out."

Wirtz, in his final report to Congress Thursday, said coverage under the Fair Labor Standards Act "should be extended to every job within the reach of federal authority and provisions should be made for encouraging full supplementary coverage, at the same level, through state legislation."

Proxmire Reads Memo On How To Fire Expert

(Continued From Page One)

the efficiency of the service," a step not otherwise explained.

By making a "reduction in force" government terminology meaning to abolish the job. The memo noted that Fitzgerald hadn't come to the Pentagon from any other government position and, therefore, "could neither 'bump' nor displace anyone" else.

By converting Fitzgerald's assignment to a Civil Service career classification, and thus requiring that it be filled by competitive examination. The third method didn't appeal to Lang, who wrote:

"This action is not recommended since it is rather unorthodox and would probably not be approved by the Civil Service Commission."

Assistant Secretary Charles resisted all efforts by Proxmire to get him to say that the memo proved the Air Force planned to fire Fitzgerald. He conceded only that "the wording was unfortunate."

Nor would Charles agree to Fitzgerald's original contention that cost of the original 58 airplanes ordered from Lockheed exceeded estimates by \$2 billion. The "over-run," he insisted, was only \$882 million.

In Service

Pvt. Marvin W. Tulla, 22, son of Mr. and Mrs. Vilho E. Tulla, Rte. 1, Rock, completed a helicopter repair course at the Army Transportation School, Ft. Eustis, Va. During the seven-week course, he was instructed in the maintenance of the single-rotor, turbine-powered UH-1 utility helicopter.

Army Pvt. Larry A. Hill, 22, son of Mr. and Mrs. Arnold V. Hill, Trenary, completed nine weeks of advanced infantry training at Ft. Polk, La. His last week of training was spent in guerrilla warfare exercises.

Other specialized training included small unit tactics, map reading, land mine warfare, communications, and firing the M-16 rifle, M-60 machine gun and the 3.5-inch rocket launcher. Hill's wife, Sara, lives in Fremont, Mich.

Newspaper Want Ads are a big sell! One billion, twenty-one million was spent on classified ads last year . . . more than for all magazine advertising combined and more than 300 million more than radio advertising.

PUBLIC NOTICE

EMERGENCY DECLARATION

DATED JANUARY 16, 1969

Under the authority vested in Sec. 194 of Ordinance No. 304, commonly referred to as the Traffic Ordinance, we declare herewith a further State of Emergency to exist in the City of Escanaba.

All previous orders are cancelled herewith.

In order to better control the flow of traffic to ease the parking situation and to expedite the movement of fire equipment and emergency vehicles, it is hereby ordered that parking shall be restricted to one side of each and every street and avenue in the City of Escanaba in accordance with this schedule.

- (1) Henceforth, parking will be allowed on the west side of all streets.
- (2) On the avenues, parking will be allowed on the north side of the avenue

This order is in full force and effect from 7 a. m. until 2:00 a. m. The present parking limitations, from 2:00 a. m. until 7:00 a. m., are still in full force and effect and will not be changed.

The only exceptions to the above restrictions are where limitations are now in effect through proper signing.

On the public parking lots, all parking limitations have been lifted.

On Ludington Street and in the 100 blocks off of Ludington Street, parking will be allowed on both sides of the street with the exception of

South 15th., South 16th., South 17th
South 18th., South 19th., South 22nd

This emergency is declared for a period of 60 days with the right to extend should the need exist.

We ask your continued cooperation in our attempts to promote the public safety.

Signed: Richard Frederick, Police Chief
Palmer Derouin, Fire Chief
